Rating Systems: An Interpretation of the Library Bill of Rights

Rating systems are tools or labels devised by individuals or organizations to advise people regarding suitability or content of materials. Rating systems appearing in library catalogs or discovery systems present distinct challenges to intellectual freedom principles.
Caveats about Presentation

- Does not discuss MARC Authority Format or authority records
- Does not cover field 386 (Creator/Contributor Characteristics)
- There are valid reasons to record and not to record the intended audience of a resource
- Examples …
  - Do not show all fields in bibliographic records
  - Show one valid cataloging approach, but there may be others
  - Some involve resources that may contain offensive terms in transcribed data or offensive content
Questions for Consideration

• Would providing the audience term discourage any users from reading, viewing, or listening to the resource?
• Is the audience term used accurate and unlikely to cause offense?
• Does recording an element for audience provide more access to the resource?
• Is the audience for the resource identified by the resource or another source?
ALA Position on Labeling Systems

• From *Labeling Systems: An Interpretation of the Library Bill of Rights*:
  – “Cataloging decisions, labels, or ratings applied in an attempt to restrict or discourage access to materials or to suggest moral or doctrinal endorsement is a violation of the First Amendment and *Library Bill of Rights*.”
  – ALA opposes “prejudicial labels” that “warn, discourage, or prohibit” access for certain groups of users

• Statement does not explain whether labels are both physical and virtual

• ALA considers including a note in a bibliographic record that a graphic novel “contains mild violence” violates the Library Bill of Rights because this “assumes all members of a community have the same values” (see question 7, [Labeling and Ratings Systems Q&A](#))
ALA Position on Ratings Systems

• From *Ratings Systems: An Interpretation of the Library Bill of Rights*:
  – “The inclusion of ratings in bibliographic records within library catalogs or discovery systems may be interpreted as an endorsement … without attribution, inclusion of such ratings is a violation of the *Library Bill of Rights*.”
  – Libraries should “cite the source of the rating and indicate that the library does not endorse external rating systems”

• This may include ratings for movies, video games, and reading scale scores
LCDGT Manual

• Library of Congress Demographic Group Terms (LCDGT) Manual

• L 480, *Assignment of Terms: Audience Characteristics* says to assign terms
  – “based on information in the title, introduction, etc., that specifically indicates the intended audience of the resource”
  – “that come readily to mind from a superficial review of the resource”

• L 480 also say to “Liberally assign inferred audiences for both fiction and nonfiction juvenile resources, particularly when they discuss social issues in an age-appropriate way.”

Original RDA Element Intended Audience

- 7.7 Intended Audience
- “A category of user for which the content of a work is intended”
- LC-PCC PS says that this is required for LC catalogers for resources intended for children
- OLAC best practice is to record this information for resources intended for children
- Examples:
  - MPAA rating: PG-13
  - For ages 14 and up
  - English as a second language students
**Official RDA Elements**

- **Expression:** intended audience of expression
  - “A category of user for which an expression is intended, or for whom an expression is considered suitable.”

- **Work:** intended audience of representative expression
  - “A category of user for whom a representative expression of a work is intended, or for whom a representative expression of a work is considered suitable.”

- **Examples:**
  - MPAA rating: PG-13
  - For ages 14 and up
  - English as a second language students

- **Other elements:**
  - Manifestation: intended audience of manifestation
  - Nomen: intended audience of nomen
FIELDS 385 AND 387

Field 385 (Audience Characteristics)

Field 387 (Representative Expression Characteristics), subfield ǂg (Intended Audience of Representative Expression)
Field 385 Audience Characteristics (R)

- **BFAS definition:** “A category of persons for which a resource is intended or a category of persons representing the intellectual level for which the content of a resource is considered appropriate.”
- Both indicators are undefined
- This field is valid in both bibliographic and authority formats
- Indexed in WorldCat as “Entity Attributes” (en:) along with other fields like 382 (Medium of Performance) and 386 (Creator/Contributor Characteristics)
Field 385 Subfields

`ǂa Audience term (R)`
`ǂb Audience code (R)`
`ǂm Demographic group term (NR)`
`ǂn Demographic group code (NR)`
`ǂ0 Authority record control number or standard number (R)`
`ǂ1 Real World Object URI (R)`

`ǂ2 Source (NR)`
`ǂ3 Materials specified (NR)`
`ǂ6 Linkage (NR)`
`ǂ7 Date provenance (R)`
`ǂ8 Field link and sequence number (R)`
Audience Term (ǂa) and Code (ǂb)

• Refers to the intended audience of the work being described

• Use subfield ǂ2 for the source of the term or code used

• Sources for vocabulary terms include
  – Art & Architecture Thesaurus (AAT)
  – International Labour Organization (ILO) Thesaurus
  – Library of Congress Demographic Group Terms (LCDGT)
  – Library of Congress Subject Headings (LCSH)
  – Thesaurus of ERIC Descriptors (ERIC)
ILO Thesaurus

• International Labour Organization (ILO), a specialized agency of the United Nations
• Available in English, French, and Spanish
• Thesaurus includes many terms related to labor, including occupation terms in section 13 LABOUR AND EMPLOYMENT
• MARC source code: ilot (English); tbit (French); toit (Spanish)
Example: ILO Thesaurus

245 1 0  Artificial intelligence in accounting: #b practical applications

ERIC Thesaurus

• Education Resources Information Center (ERIC)
• Founded in 1964
• Terms related to the field of education from the United States Department of Education
  – Terms are based on United States educational system
  – Includes terms for students and age groups
• Authorized terms are called “descriptors”
• MARC source code: ericd
Example: ERIC Thesaurus

245 1 0 Bar exam MPT preparation & experiential learning for law students

385 Law Students ≠2 ericd

650 0 Bar examinations ≠z United States ≠v Study guides

LCDGT

• Library of Congress Demographic Group Terms (LCDGT)
• LCDGT has terms available for free at id.loc.gov and via subscription from ClassWeb Plus
• There are category names and codes available for use with LCDGT terms at https://www.loc.gov/standards/valuelist/lcdgt.html
• MARC source code: lcdgt
Example: LCDGT

245 1 4 The illustrated practical guide to gardening for seniors

Demographic Group Term (ǂm) and Code (ǂn)

• Refers to the demographic group to which the terms and codes in ǂa or ǂb belong

• Subfield ǂ2 is not repeatable so it cannot be used to specify difference sources when ǂa and ǂb and ǂm and ǂn are recorded in the same field

• Demographics (noun): “the statistical characteristics of human populations used especially to identify markets”—Merriam Webster Dictionary

• “A demographic group may be defined as a subset of the general population, and refers to the group’s age, occupation, nationality, ethnic background, medical condition, etc.”—Introduction to LCDGT
Audience vs. Demographic Group

• “A demographic group may be defined as a subset of the general population, and refers to the group’s age, occupation, nationality, ethnic background, medical condition, etc.”—Introduction to LCDGT
  – Do equate “demographic group” in LCDGT to the MARC subfield ℹ️m or ℹ️n label!

• The **audience term** (ǂa) or **code** (ǂb) may be for a specific demographic group

• The **demographic group term** (ǂm) or **code** (ǂn) provides a category to which the audience term or code belongs
Library of Congress Demographic Group Categories Term and Code List

Term and Code List

The purpose of this list of demographic categories and associated codes is to allow terms that are authorized in Library of Congress Demographic Group Terms (LCDGT) to be collocated at a broad level. The demographic group category codes are three-character lowercase alphabetic strings. They are derived from the first letter of the demographic group category and two additional letters from the word(s) making up the demographic group category name.

**Age [age]**
- Use for the chronological age of the group members (e.g., Adults, Children, Infants).
- Educational level [edu]
  - Use for the educational level of the group members (e.g., First grade students, Graduate students, High school students).
- Ethnic/cultural [eth]
  - Use for the ethnic or cultural identification of the group members (e.g., Asian Americans, Marathi (Indic people), Muscogee (North American people). For ethnic and cultural groups that are also demonyms associated with a supra-national region, a country or a sub-national region or jurisdiction, prefer Nation/regional category.
- Language [lng]
  - Use for the language associated with the group members (e.g., Arabic speakers, English speakers, Zulu speakers).
- Medical, psychological, and disability [mpd]
  - Use for the medical or psychological condition, or the physical or mental disability, of the group members (e.g., Breast cancer patients; Mentally ill; Deaf).
- National/regional [nat]
  - Use for the demonym related to a supra-national region, a country, or a sub-national region or jurisdiction that is associated with the group members (e.g., Angolans, Bavarians, Easterners (United States)). For ethnic and cultural groups that are not also demonyms, prefer Ethnic/cultural category.
- Occupation/field of activity [occ]
  - Use for the activity or occupation associated with the group members (e.g., Hunters, Mathematicians, Textile artists).
- Religion [rel]
  - Use for the religion or denomination, sect, etc., of the group members (e.g., Buddhists, Presbyterians, Shites).
- Social [soc]
  - Use for identifiable social groups that cannot be included in the other categories (e.g., Children of divorced parents, Nursing students, Socialists).
385 Example: Occupational Group

Field 387 Representative Expression Characteristics (R)

• **BFAS definition:** “A characteristic of an expression that is considered a canonical source of data for identifying a work.”

• Letter subfields specify which characteristic is recorded, e.g.,
  – ǂc Content type of representative expression (R)
  – ǂg Intended audience of representative expression (R)

• Subfield ǂ2 (NR) specifies source of term
  – Need to repeat field when different sources are used

• Both indicators are undefined

• Field 387 is not currently indexed in WorldCat
387 Example: Intended Audience Age Level

Field 521 Target Audience Note (R)

• **BFAS definition:** A note about the target audience for the described material. Use primarily when the contents of an item are considered appropriate for a specific audience or intellectual level (e.g., elementary school students). Use to record interest and motivation levels and special learner characteristics.

• **Subfields:**
  - ǂa Target audience note (R)
  - ǂb Source (NR)
  - ǂ3 Materials specified (NR)
  - ǂ6 Linkage (NR)
  - ǂ8 Field and sequence number (R)

• **Subfield ǂa is indexed in Notes (nt:) and Keyword (kw:)**

CONCLUSION
Cataloger Judgment

• When your cataloging community or library does not have policies, it’s up to you

• Consider
  – Your library’s users
  – Your own biases
  – Information in the resource
  – How audience information appears in public catalogs
