Virtual AskQC Office Hours

Thank you for joining us!
We will begin at 1:00 PM Eastern

Attendees are in listen-only mode

AskQC@oclc.org (Ask Quality Control) is the longstanding email address to which catalogers can send questions to OCLC Metadata Quality staff about cataloging policies, standards, and practices.
February 13, 2019

Virtual AskQC Office Hours
Provider-Neutral Cataloging

OCLC Metadata Quality
Housekeeping

• After the session you will be directed to a quick, optional survey
Housekeeping

- After the session you will be directed to a quick, optional survey
- All session recordings, slides, and notes are available at oc.lc/askqc
On the call today

Nathan Putnam
Director, Metadata Quality

Robert Bremer
Senior Consulting Database Specialist

Laura Ramsey
Section Manager, WorldCat Quality

Jay Weitz
Senior Consulting Database Specialist

Patty Treboni
Database Specialist II

Cynthia Whitacre
Manager, Metadata Policy
PROVIDER-NEUTRAL CATALOGING
Provider-Neutral Cataloging—Introduction

- P-N model uses a single bibliographic record to describe all instances of the same manifestation of a resource, regardless of which content publisher, aggregator, or provider is making the manifestation available.
- P-N records function as “base” record in the shared cataloging environment omitting provider-specific details.
- If additional cataloging details are needed, they can be added locally or for WMS institutions added in LBD records.
Provider-Neutral Cataloging—Introduction

• Practical solution to cataloging proliferating online resources, photocopies, and print-on-demand reproductions
• Provisions of P-N cataloging guidelines often conflict with AACR2 and RDA instructions, yet they are routinely used in conjunction with each other
• P-N cataloging guidelines were first developed for cataloging online resources
Provider-Neutral Cataloging—Online Resources

• P-N cataloging of online serials began in CONSER in 2003 after previous experiments ranging from cataloging just the publisher’s instance of the online serial to creating multiple records for an online serial as available on different websites
• P-N cataloging of online textual monographs began in 2009 and online resources in all other formats in 2011
Provider-Neutral Cataloging—Online Resources

- P-N guidelines cover resources that are simultaneously issued online and in a physical format, online reproductions of resources originally issued in physical format as well as born-digital online resources.
- P-N guidelines make no distinctions between these situations making online resources easier to catalog.
Provider-Neutral Cataloging—Online Resources

- P-N cataloging guidelines treat different instances of the same manifestation online at different websites as essentially copies of a single manifestation resulting in one record.
- Same resource digitized independently by different providers at different points in time are represented by one P-N record.
- Different manifestations of a resource still need to be cataloged on separate bibliographic records.
Provider-Neutral Cataloging—Online Resources

- Base the description on the title page or on the related print version bibliographic record in which case make a note in field 588, e.g., 588 0 Print version record.
- Transcribe the first named place, publisher, and date even if they long pre-date the era of online resources
- Give the extent as “1 online resource” and include paging within parentheses
- Provide a link in field 776 to the related print version resource
Provider-Neutral Cataloging—Online Resources

• Record the URLs for the various providers using multiple 856 fields
• Prefer “generic” URLs that lead to the resource title page, metadata, etc., over solely local URLs
• Include ǂ3 with a brief name of the provider or collection along with any other material specific information such as volume numbers, e.g.,
  – 856 40 ÷3 Springer, v. 1 ÷u
Provider-Neutral Cataloging—Online Resources

- What makes P-N records “neutral” is that provider-specific information is omitted. Do not include:
  - Providers as publishers or distributors
  - Providers as name access points
  - Provider-based series statements and series access points
  - Information about providers in notes
  - Information about file formats, file sizes, devices, system requirements, access restrictions, and subscription information

However, there are some exceptions:
Provider-Neutral Cataloging—Online Resources

- Exception— May include digital preservation fields in P-N records with fields marked with subfield #5:
  - 506 #3 Use copy #f Restrictions unspecified #2 star #5 MiAaHDL
  - 533 Electronic reproduction. #b [Place of publication not identified] : #c HathiTrust Digital Library. #d 2011. #5 MiAaHDL
  - 583 1 digitized #c 2011 #h HathiTrust Digital Library #i committed to preserve #2 pda #5 MiAaHDL
Provider-Neutral Cataloging—Online Resources

• P-N guidelines are applicable to all records for online resources in WorldCat cataloged in any language under any cataloging instructions.
• P-N guidelines are applicable when cataloging the first instance of a resource online rather than the approach of later “neutralizing” a record when it appears online on a different website.
• Code “ǂe pn” is added in field 040 when P-N guidelines are used.
Provider-Neutral Cataloging—Online Resources

- 006 m o d
- 007 c ‡b r ‡d c ‡e n
- 040 E7B ‡b eng ‡e rda ‡e pn ‡c E7B
- 100 1 Eltzbacher, Paul, ‡d 1868-1928.
- 245 10 Totes und lebendes Völkerrecht / ‡c …
- 264 1 München : ‡b Duncker & Humblot, ‡c 1916.
- 300 1 online resource (79 pages)
- 336 text ‡b txt ‡2 rdacontent
- 337 computer ‡b c ‡2 rdamedia
- 338 online resource ‡b cr ‡2 rdacarrier
Provider-Neutral Cataloging—Online Resources

- 588 0 Print version record.
- 856 40 ǂ3 ebrary ǂu http://site.ebrary.com/id/10768495
- 856 40 ǂ3 MyiLibrary ǂu http://www.myilibrary.com?id=774506
Provider-Neutral Cataloging—Photocopies and POD Reproductions

• Similar to previous practice for cataloging photocopy reproductions
• Expanded to cover print-on-demand reproductions
• Describe the original publication and code the fixed-field accordingly
Provider-Neutral Cataloging—Photocopies and POD Reproductions

- Code 040 with “ǂe pn”
- Code Form: with “r”
- Add “533 Print reproduction” without any other details, i.e., omit the place of publication, the publisher, the date, the physical details, and any series or notes related to the reproduction
- If you find a record for a photocopy or POD reproduction that is not P-N, you may update that record to P-N
Provider-Neutral Cataloging—Documentation
