Copyright management

Rick Newell
Senior Product Trainer
OCLC
Learning objectives

For libraries in the United States, after completing this course, you should be able to:

• Configure copyright management options
• Track copyright compliance for ILL requests requiring royalty payments
• Interpret the copyright queue
• Select the appropriate option in the copyright clearance section of a request
• Use Tipasa copyright reports
U.S. copyright: CCG and CCL

• CCG: Complies with Copyright Guidelines
  – Your library does not subscribe to the journal AND the publication date is within the last 5 years
  – With CCG, you should request only 5 copies per title in a year

• CCL: Complies with Copyright Law
  – Your library subscribes to the journal OR the publication date is more than 5 years ago
  – No limit on number of copies you can request under CCL
Copyright management features

• View copyright clearing in separate queue, if desired

• For copy requests for publication date within last 5 years:
  – Match to previously borrowed titles and track times used
  – Mark as:
    • CCG (cleared for fair use)
    • Clear with fee payment required (CCG) (obtain cost from CCC)
    • Other

• View and export copyright information by title, edit copyright usage and view and export data about payable copyright fees
Copyright management

- Without copyright management

- With copyright management turned on
Copy requests can be “automatic”

• If request matches an applicable automation…
• And a Proven Sender fills the request using Article Exchange…
• Then patron is notified and can access article in My Account
• Without intervention by borrowing library
• (and for CCG requests, use count for that title will be automatically incremented, if there is a valid issue date in the request)
Copyright Compliance statement:

The copyright law of the United States [Title 17, United States Code] governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the reproduction is not to be used for any purpose other than private study, scholarship, or research. If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that use may be liable for copyright infringement.

☐ I acknowledge that I have carefully read and understand the copyright compliance statement above.

Proceed
Copyright queue
Copyright queue

3 CCG requests for this title this calendar year. Of those 3, 2 have been filled; 1 is pending.

Request does not match title in your copyright table (e.g., no ISSN or OCLC # in request).
Copyright matching

Tipasa attempts to match copy requests to records in your library’s copyright table using ISSN and OCLC number.

If request contains neither ISSN nor OCLC number:
- In copyright queue > Used column, ? displays
- In copyright section of request, message displays: “This request has neither ISSN nor OCLC # for copyright matching.”

If no matches or multiple matches:
- In copyright queue > Used column, ? displays
- In copyright section of request, message displays: “No previously borrowed journal matches found.”
No match found

No ISSN nor OCLC #
Check for similar previously borrowed titles

Quiz & simulation tips

In most web browsers, you can

- Press Ctrl and + to make the display bigger
- Press Ctrl and – to make the display smaller
Simulation tips

If you’re not sure what to do next, many simulation screens have a Hint button at the top.
Simulation and quiz

• If you are participating in a live online class
  • See clickable links in Webex chat panel
  • When you have finished the simulation, please click the smile reaction from the bottom of the screen
  • If you finish early, also try the Quiz
  • To open chat panel, click the button at the bottom right of the screen

• If you are viewing a recording
  • Pause the recording (use button at bottom of screen) to do the simulation and quiz
  • See clickable links in Webex chat panel
  • To open the chat panel, click the button in the upper right corner
Proven senders enhancement

- Available since October 23, 2023
- Enable Proven Senders to automatically receive copy requests from all suppliers
- See release notes for more information
Documentation and training
