

Ten[®] Software: Release Notice

Version: 4.0.0

Date of Release: August 2012

Document Date: 30th August 2012

Ten[®] Software: Release Notice – Version 4.0.0

This is a General Release of Ten[®]. The Risk Manager software allows you to quickly evaluate the highest risks or risks with the highest potential loss, and then manage actions to reduce the likelihood or consequence of an event occurring.

Release 4.0.0 adds the following features:

- A new web interface
- Advanced searching and filtering capabilities
- Administrator configurable email alerts
- Interactive charting
- Improved reporting wizard which allows the user to configure reports.

Ten[®] includes the following applications:

Ten[®] Risk Manager Web Site

Consists of sections for:

- Identifying risks
- Analysing risks
- Evaluating risks
- Treating risks.

Job Scheduler

Consists of actions to:

- Activate recurring mitigation actions / treatments
- Run System KRI / KPI
- Raise risks for expired exemptions
- Generate Monthly Risk Data.

Notification Manager

Consists of sections for:

- Risk reviews due
- Risk reviews overdue
- Actions due
- Actions overdue
- Other single notifications
- Compliance notifications.
