

# Controlling & Managing your Information Assets with DataStoreDSX

Jonathan Dedman, GRC Sales Consultant, Mitrtech

## MEET YOUR PRESENTER

---

As a Sales Consultant of Mitratesh, Jonathan's primary responsibilities include supporting sales opportunities by designing and delivering software demonstrations around the Mitratesh GRC suite of programmes.

In his spare time, Jonathan enjoys driving, riding or working on anything with an engine.

- Information Governance Challenges
- How can DataStoreDSX help?
- Scenarios
  - Scenario 1 – Contract Management
  - Scenario 2 – Employee Onboarding
- DataStoreDSX Demo
- Questions?

# INFORMATION GOVERNANCE CHALLENGES

---

- What data do we hold?
- How do we use that data?
- Where do we go to find data?
- Are we holding the right data?
- Is the data controlled appropriately?
- Does our data meet regulatory requirements?

# HOW CAN DATASTORESX HELP?
