

Release Notes

Document ID: TAP_1_2_1_p_1

This is a technical document that details the bug fixes that were released with TAP 1.2.1.1.

1 Resolved Issues

The following items have been resolved in the TAP 1.2.1.1 release. Each issue is documented in the following format:

- **Issue:** A brief description of the bug that was fixed.
- **Tracking code:** Internal tracking code for Mitratach folks to reference.
- **Salesforce case number:** Curious if a bug you reported was fixed? Copy your Salesforce case number and search for it on this page.

Issue: Super administrators were unable to save edited information within an NDA TAP dashboard. Additionally, the edited information was deleted when the user tried to save.

Internal Tracking code: TAPSUP-543

Salesforce Case number: 2019-0212-507191

Issue: Workflows that went into the *Pending* Signature step were not visible to the users that submitted them, even though the users had the correct permissions.

Internal Tracking code: TAPSUP-626

Salesforce Case number: 2019-0221-509264

Issue: Error occurred when user tried to clone a workflow using the TeamConnect integration. This prevented users from making any changes to TAP/TeamConnect workflows.

Internal Tracking code: TAPSUP-554

Issue: The type-ahead functionality on searching for fields in stage conditions was not working. Users were not able to type the name of a field and select it.

Internal Tracking code: TAPSUP-585

Issue: Information on certain fields was not displayed correctly on a client's dashboard.

Internal Tracking code: TAPSUP-481

Salesforce Case number: 2019-0129-503763

Issue: The TAP application intermittently crashed when trying to import users via API calls.

Internal Tracking code: TAPSUP-404

Salesforce Case number: 2019-0114-500309

Issue: User roles could not be updated or changed within a user profile.

Internal Tracking code: TAPSUP-293

Salesforce Case number: 2018-1116-490849

Issue: Administrator received an *Email must have correct format* error message while trying to update a user's role.

Internal Tracking code: TAPSUP-417

Salesforce Case number: 2019-0116-501177

Issue: The drop-down search functionality was not working within a workflow.

Internal Tracking code: TAPSUP-480

Salesforce Case number: 2019-0129-503770

Issue: User was unable to delete certain workflows.

Internal Tracking code: TAPSUP-335

Salesforce Case number: 2018-1212-495442

Issue: Users were not added to the system when uploaded via .CSV.

Internal Tracking code: TAPSUP-407

Salesforce Case number: 2019-0112-500109

Issue: User could not navigate to the edges of the workflow canvas (in designer) on a normal-sized laptop monitor.

Internal Tracking code: TAPSUP-220

Salesforce Case number: 2018-0908-475757

Issue: Error occurred when user tried to download the CSS file attachment from a workflow.

Internal Tracking code: TAPSUP-283

Salesforce Case number: 2018-1114-490294

Issue: User was unable to delete fields that had too many conditions

Internal Tracking code: TAPSUP-420

Salesforce Case number: 2019-0118-501714

Issue: Duplicate entries appeared when user tried to insert value into a data source and add records from a form.

Internal Tracking code: TAPSUP-429

Salesforce Case number: 2019-0122-502044

Issue: When a document was sent to client, the signature repository status remained as *Authoring* then updated to *Signed* or *Aborted* but did not update to the correct status of *Out for Signature*.

Internal Tracking code: TAPSUP-42

Salesforce Case number: 2018-0920-478139

Issue: *Edit Request* action would not open in a new window when prompted by this path: Dashboard > Actions > Edit > Right Click > Open in New Window.

Internal Tracking code: TAPSUP-217

Salesforce Case number: 2018-1103-488025

Issue: Error occurred when user clicked **Edit Request** on a record.

Internal Tracking code: TAPSUP-642

Salesforce Case number: 2019-0222-509588

Issue: The completed DocuSign did not progress through the workflow after the eSignature Splitter had been signed by all parties.

Internal Tracking code: TAPSUP-416

Salesforce Case number: 2019-0116-501085

Issue: A workflow did not appear when a request was sent via API.

Internal Tracking code: TAPSUP-418
