2 Changes and Enhancements

TeamConnect 5.0.6 does not include any net new changes or enhancements. However, users upgrading from versions prior to 5.0.1 are encouraged to read the TeamConnect 5.0.1 Release Notes for changes carried forward from that release.

3 Upgrade Considerations

TeamConnect 5.0.6 supports both JDK 1.7 and 1.8. Similarly, the 5.0.x line supports WebLogic 11g as well as 12c. Later TeamConnect versions (5.1+) will deprecate JDK 1.7. Users seeking to upgrade to 5.1 from this update will need to upgrade to 5.1.1 rather than 5.1.0.
