## Overview

E-resource material is often very expensive, taking up a large part of a library's budget. It is most important for libraries to be able to gauge whether an e-resource package should be renewed, or whether to subscribe to a new package. The option to run a trial or evaluation greatly assists staff in the decision making process. Alma offers sophisticated, comprehensive workflows for managing trials and evaluations.

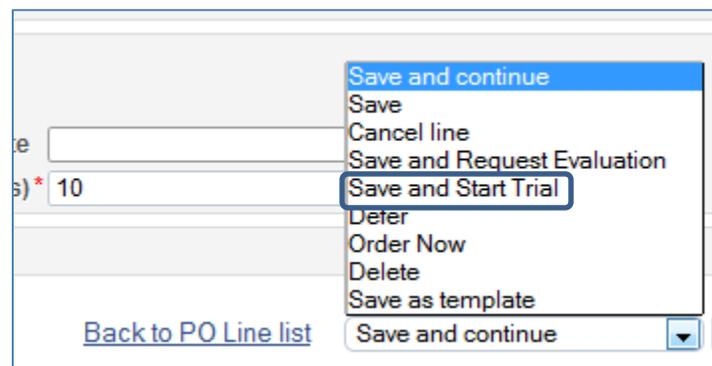

This document shows a step by step trial workflow. The workflow for evaluations is similar – with the difference that the library will assess if an existing e-resource package should be renewed.

## The Trial Workflow

### First Steps – Ordering the E-Resource

The initial steps for the trial workflow are the same as for ordering an e-resource package. The staff user searches the Alma Community Zone to find the relevant e-resource.

Once found, an order for the e-resource is initiated, and all the relevant fields in the PO Line are filled in. (For more details related to the workflow, refer to *Doing Things Better in Alma – E-Resource Acquisition and Activation*.) However, instead of clicking on Order Now, or Save and Continue, choose the option **Save and Start Trial**.

## The Trial Screen

After clicking on this option, the first part of the trial screen opens. The start and end dates of the trial must be filled in.

The **Notification Period** defines the number of days before the start of the trial that you want the email invitation sent to trial participants.

Note the option for defining if the trial will be available to the Public. If this is a private trial, you will have to list the users that will participate in the trial.

Once the necessary details have been filled in, click on the **Save and Continue** button to continue with the trial workflow.

The detailed, tabbed Trial screen displays. The **Participant Page URL** has been filled in with the URL of the related survey form.

The Summary tab now includes a section – **Analysis and Result**. These fields will be filled in at the conclusion of the trial, after the participants have submitted their survey forms.

## The Survey Form

The Survey Form tab allows the trial manager or operator to either add questions, or to copy questions from a pool of survey questions that were created for other trials. This is a very useful option – in that the questions for all trials are usually common, and it makes for a more efficient

workflow if we are able to copy existing questions rather than having to create new ones for each trial.

When adding a question we have the option of defining if the question relates to the Content, Interface or Conclusion. In addition we can define the type of response required – Scale of Satisfaction, Yes/No or Free Text.

Questions chosen from the pool of questions can be edited and modified if necessary. Note that when choosing from the pool we can see related details (trial and PO Line).

## The Participants Tab

This tab needs to be populated when defining a private trial. The **Select Participants** option allows for searching and choosing multiple users. Use the Find option to search for users/patrons on a one by one basis.

Select Participants *							
Find :						in : All	Go

<a href="#">Anna Allen</a>	Internal	Staff	Cataloging + Acquisitions Operator	Administrative Staff	Active	11/09/2011 11:15	

Participants chosen to take part in a trial will automatically have the role Trial Participant added to their user record.

## Activating the E-Resource

In order to start the trial, the e-resource must be activated. We can see this information in the **Alerts** tab.

Type	Description
	Resource for this trial was not activated.

For details of e-resource activation refer to *Doing Things Better in Alma – E-Resource Acquisition and Activation*.

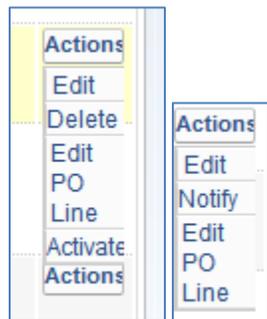

The trial record will have a status of **Draft**. An automatic process run in Alma every night will check the status of all trials, and if relevant will activate the trial and notify trial participants. The status of the trial changes to **Active**.

<a href="#">Trials - Start and Notify Participants</a>	Acquisition	System	03/18/2013 23:00	03/18/2013 23:00	03/18/2013 23:00	Completed Successfully	Actions
--	-------------	--------	------------------	------------------	------------------	------------------------	---------

From the Alma Menu -> Acquisitions -> Purchase Order Lines -> Manage Trials we can see a list of trials with summary information about the status of the trial; alerts; start and end trial dates; vendor information; a hypertext link to the related PO Line; and if the trial is private or public.

Name	Status	Vendor	Start Date	End Date	PO Line #	Public	Participants	Actions

<a href="#">Gale Cengage Home Improvement</a>	2 Draft	-	03/11/2013	04/08/2013	<a href="#">POL-4610</a>		✓	Actions

The **Actions** button offers options to activate the e-resources, or to notify participants about the trial. Note that there is no option to notify before activation, and once the e-resource is activated, this option no longer displays from the Actions button.

## Patron Participation

Once the trial has been activated, patrons will receive a notification about the trial with a hypertext link to the survey form that they need to complete.

At the conclusion of the trial the trial manager can **Close** the trial from the Actions button on the Manage Trials screen.

## Conclusion

We have seen that Alma has rich and powerful functionality for managing trials of e-resource material. By utilizing the tools and workflows provided by Alma, library staff are aided in the decision making process with regard to subscribing to e-resource material.
