

SolarWinds Smart Start

YOUR PATH TO SUCCESS STARTS WITH EXPERT GUIDANCE THAT HELPS OPTIMIZE SOLARWINDS SOFTWARE FOR YOUR SPECIFIC ENVIRONMENT.

Software that isn't being used doesn't add value or solve problems. Our experts help you quickly deploy your SolarWinds software to assure maximum performance and value.

With Smart Start, you get:

-  One-on-one expert guidance to make sure you are configuring, customizing, and optimizing your SolarWinds environment quickly and correctly
-  Assistance from an experienced Customer Success rep who understands your environment and is focused on helping you achieve your IT management objectives
-  Peace of mind that comes from knowing you are making the most of your SolarWinds software

SolarWinds® Smart Start helps you quickly implement and optimize SolarWinds world-class software with one-on-one expert advice from SolarWinds implementation experts.

Smart Start fulfills your need to get the most value out of your SolarWinds products, from configuration to customization and beyond. This program speeds time to value, optimizes SolarWinds software in your environment, and assures peace of mind that you are getting the most out of your SolarWinds software.

SMART START AT A GLANCE

Smart Start has two phases. The first focuses on installing and configuring your software. The second optimizes SolarWinds in your environment to help ensure that you are following best practices going forward.

“ I believe Smart Start for LEM helped me shave 2 or 3 weeks off my deployment time and getting the best practices early in my deployment was a big benefit. **”**

— Josh M.,
Banking Industry,
SolarWinds customer
since 2017

Smart Start is available for the following products:

- » Network Performance Monitor
- » Network Configuration Manager
- » Network Traffic Analyzer

LEARN MORE
