1. Introduction

1.1. Purpose and Scope

This document describes the functional and technical changes included in this service pack and provides implementation instructions where appropriate.

Note: This document details the changes included in the current Service Pack only.

1.1.1. Service Pack Name and Number

MetaLib Service Pack 4.2.1 (366-384), August 2008.

1.1.2. Service Pack Highlights

This Service Pack includes bug fixes for MetaLib version 4.2 and one enhancement feature. There are *no* items requiring mandatory implementation action. The delivery mechanism is the standard MetaLib Service Pack (SP) mechanism, which will automatically apply all software changes related to these items.

The Service Pack can be applied on any MetaLib 4.x version. Customers who have not yet applied previous MetaLib 4.0 Service Packs should refer to the related documents listed below.

1.2. Related Documents and References

2. Service Pack Content Summary

[Table 1](#) contains a list of corrections that are included in this Service Pack.

Table 1: Corrections

#	Fix Number	Description	Module	Fix Type	Support Incident
1	366	Values of a resource that contained apostrophes, couldn't be updated using the "Global Update" functions. This problem was fixed.	/M	Fix	8192-85956
2	367	In a consortium, when an IRD was replicated to another institution, the local search hints could not be edited.	/M	Fix	8192-55018
3	368	There was a redundant error message when exporting CKB manually from the command line. This was fixed.	/M	Fix	8192-45136
4	369	The HTML entities weren't displayed correctly in Full View of Quick Search results.	/V	Fix	
5	370	When a Portal code was longer than 12 characters, there were problems to switch to this portal from another and to access the portal using deep-links. The relevant programs were corrected.	/V	Fix	16384-8104
6	371	When two institution codes started with the same phrase and then a dash in one of them (e.g. Metal and Metal-ib) a search for resources in one institution would retrieve results from both institutions. This was a bug in the indexing program and was fixed.	/M	Fix	8192-71750
7	372	The link to the "Holdings" (for resources that have "holdings information"), full view for duplicated records in MetaSearch results, retrieved a wrong page. This was fixed.	/V	Fix	16384-22192

#	Fix Number	Description	Module	Fix Type	Support Incident
8	373	Find database – A-Z list function using the Korean A-Z list on "Internet Explorer" version 6 did not work. This was fixed.	/V	Fix	139873
9	374	When working in the embedded Find e-Journal page, the automatic refresh invoke would end the user's session and display the homepage. This has been solved.	/V	Fix	16384-14858
10	375	In the X-Server, "retrieve_resources_by_quick_sets" service, if IRD filtering details were sent and "requester_ip" was empty – IRD's that belonged to IP groups were not returned. This was fixed	X-Service	Fix	
11	375	A new optional parameter ("primo_details") was added to the X-Server "retrieve_resources_by_quick_sets" service. If this flag is "Y" then the X-server will return all resources indicating the authorization status as well as IP ranges if the resource belongs to an IP group. If the flag is not used or it is "N" the service will return the same information as in the past. .	X-Services	Enhancement	
12	376	The IRD's Categories tab and the Categories Admin display were not synchronized – under some circumstances, update on one did not update the other. This was fixed.	/M	Fix	16384-16592
13	377	The link to the native resource did not work in duplicated records in QuickSearch results. This was fixed.	/V	Fix	16384-17845
14	378	Searching a MetaIndex by year did not retrieve any results. This was corrected.	/V	Fix	8192-55928
15	380	Translation of fields in "NorMarc" (Norwegian Marc) records using a translation table (under tab_conversion) did not work correctly. This was fixed.	General	Fix	16384-5989

#	Fix Number	Description	Module	Fix Type	Support Incident
16	381	Users who uses POST Proxy couldn't link to Seach&Link resources. This was fixed.	/V	Fix	8192-81807
17	382	After performing CKB update, there was a need to perform "start_w" in order to view the changed or added resources (using these functions under /M menu), although the CKB update succeeded. This was fixed.	General	Fix	16384-30944
18	383	Records retrieved in the MAB character set were not converted correctly to Unicode. This was fixed.	General	Fix	16384-30620
19	384	Fix number 377 created a regression problem: clicking on the External link option did not always lead to the native interface as intended. This problem is corrected with this fix..	/V	Fix
