

# The Story of Leganto

April 2016

Tamar Sadeh, PhD; Director of Discovery Strategy

**We are here to address current  
reading list challenges**

- **Very busy**
- **Hard to engage them**
- **Not familiar with copyright laws**
- **Still obliged to provide reading lists**

- **No robust workflows**
- **A lot of manual work**
- **Copyright infringement threats**
- **Many lists remain a mystery**  
**Usage information unknown**

**Instructors**

**Library**

**Students**

**Institution**

- **Readings not always accessible. Or available.**
- **No one place for all readings**
- **Sometimes, long and cryptic reading lists**
- **No fun...**

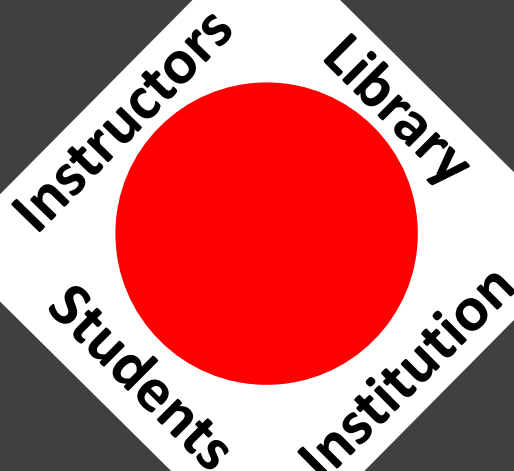

**Inefficient and costly practices**

- **Risks related to copyright breaches**
- **Student engagement and retention**

# Our Approach

- Make it as easy as possible
- Go one step beyond

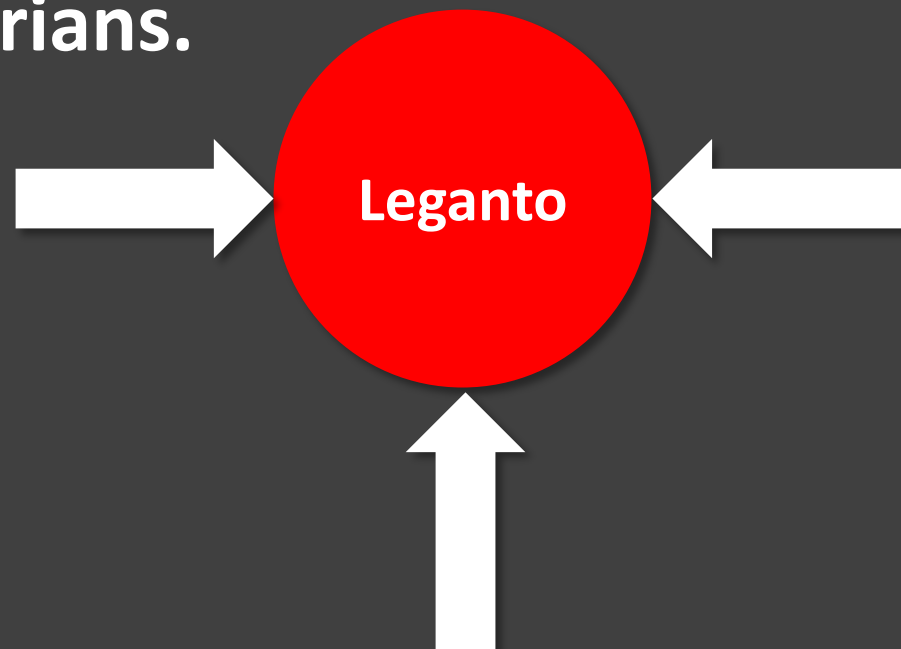

- Help extend the library's reach and assist instructors
- Streamline workflows and increase efficiencies

- Provide proper reading lists
- Engage

- Leverage current investment
- Save costs

**Leganto is a collaborative, cloud-based resource list solution, serving instructors, students, and librarians.**

- **15 customers in seven countries**

Australia (4), Belgium (1), Canada (1), Israel (1), Italy (2), UK (3), USA (2)

- **Six live customers; Kingston University, London being the first (September 2015)**

## Butterflies: Introduction

Butterflies are part of the class of insects in the order Lepidoptera, along with the moths. Adult butterflies have large, often brightly coloured wings, and conspicuous, fluttering flight. The group comprises the large superfamily Papilionoidea, along with two smaller groups, the skippers (superfamily Hesperioidea) and the moth-butterflies (superfamily Hedyloidea). Butterfly fossils date to the Palaeocene, about 56 million years ago.

# Leganto Architecture

# Leganto in Production

- 1015 unique users accessed Leganto via Blackboard
- 69 new reading lists\* created; 22 published to students
- 2944 new citations added

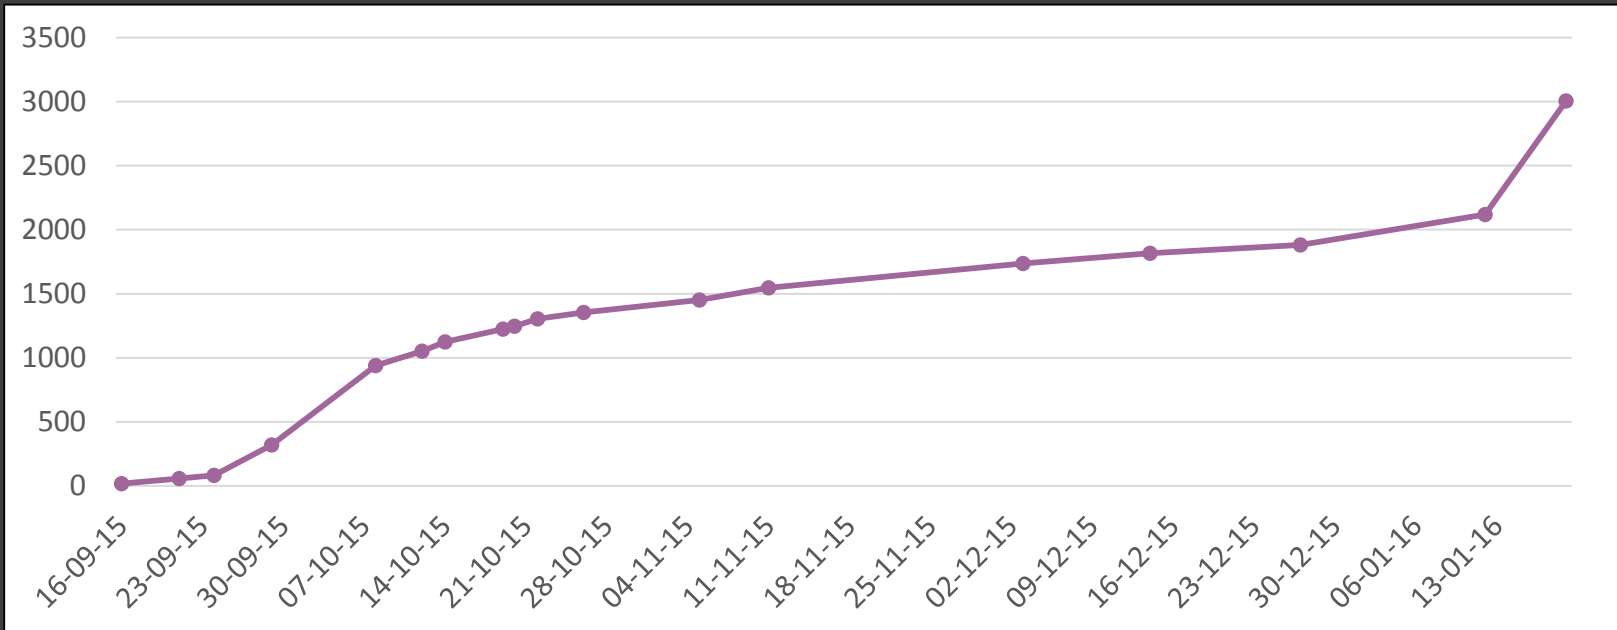

First three weeks in production

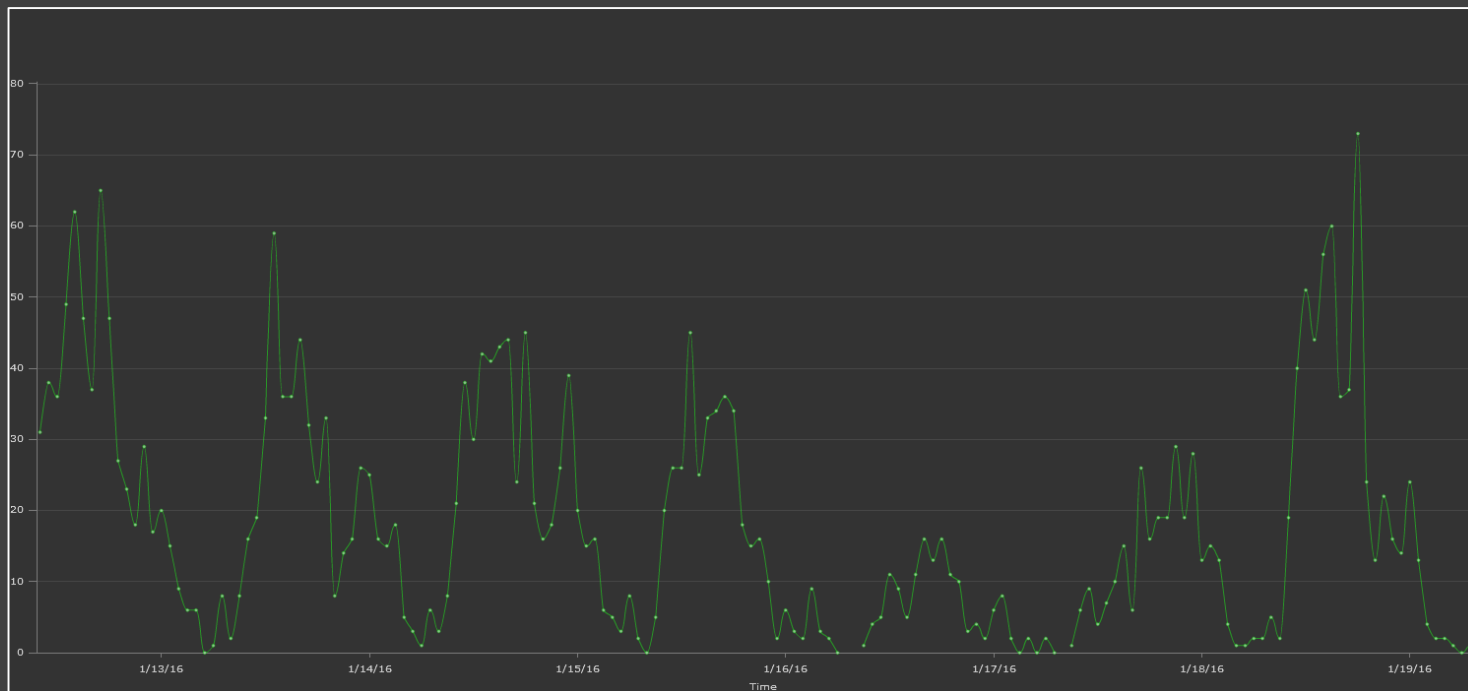

\* Semester started (September 28) with reading lists already loaded

# Unique users

September 2015 - January 2016: Unique users

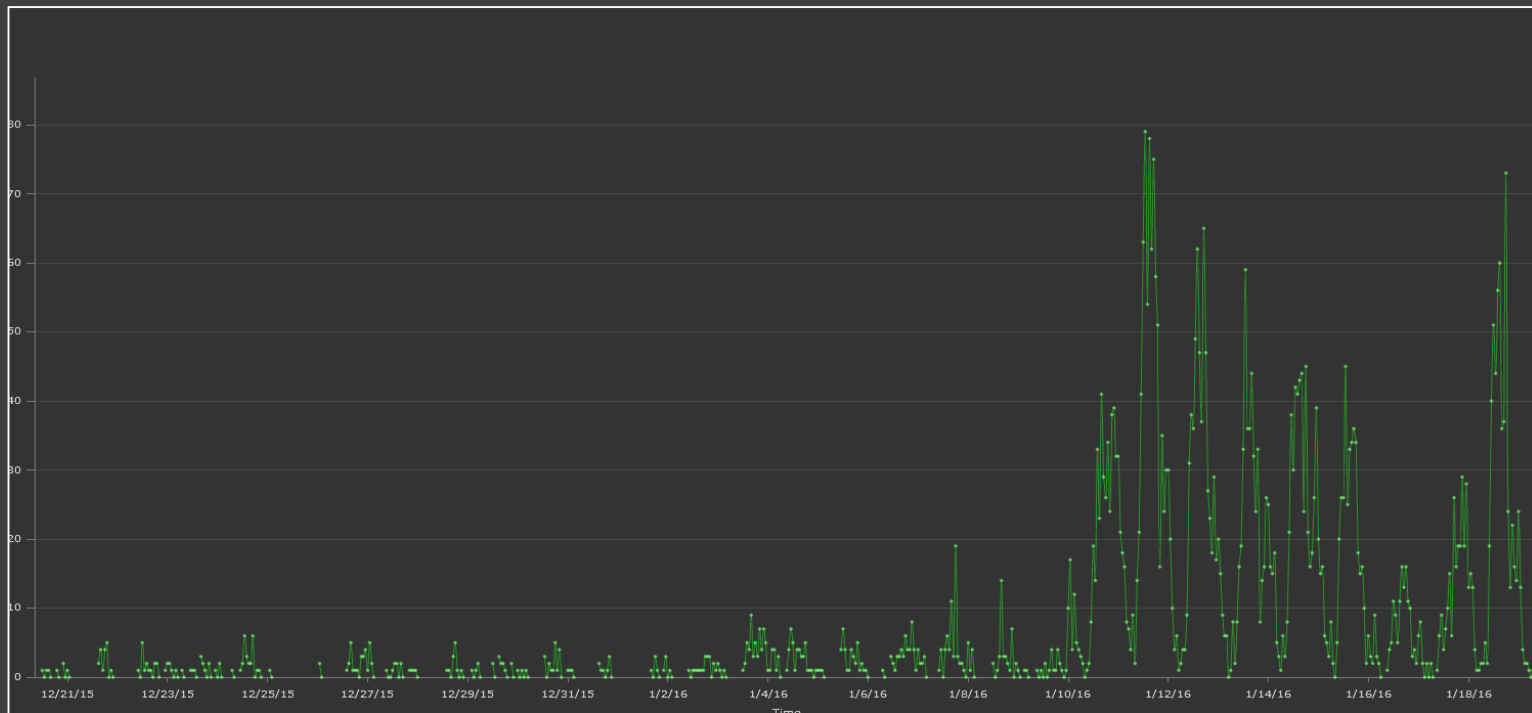

# Student access distribution 13-19 January 2016

# Student access distribution

## 21 December 2015 - 18 January 2016

# Roadmap Highlights

- **Analytics and reports for the library and the instructor**
- **Cross-system copyright clearance workflows**
- **Support of reference managers as sources for materials**
- **Tighter integration with Alma and Primo**
- **Notifications for students**
- **campusM mobile app**
- **Additional types of recommendations**

**Summing up:  
The way in which  
Leganto addresses the  
needs of stakeholders**

# For Instructors

- **Easy. Saves time and effort. Does not require that they go out of their way to use it.**
- **Helps in engaging students and collaborating with students, peers and librarians.**
- **Brings new materials to instructors' attention.**
- **Takes the burden of possible copyright breaches off their shoulders.**
- **Provides explicit and implicit student feedback that helps academics improve their lists.**

# For Students

- **Makes all course readings available in one place**
- **Enables students to:**
  - **Share views with peers and instructors**
  - **Gather other materials of interest**
  - **Suggest materials to the instructor and classmates**
  - **Explore readings of other courses**
  - **Access course readings when the term is over**

# For the Library

- **Extends the library reach**
- **Increases efficiency and saves costs**
- **Leverages librarians' skills**
- **Enables the library to properly handle copyright and avoid breaches**
- **Helps in optimizing the library collection**
- **Provides the tools to demonstrate the library's value to the institution**

# For the Institution

- **Leverages the investment in Alma and Primo to improve teaching and learning**
- **Boosts student engagement**
- **Increases efficiency and saves costs**
- **Helps in mitigating risks related to copyright infringement**
- **Facilitates knowledge-sharing among instructors, students and librarians**
