Primo Product Update

Yuval Kiselstein, Head of Product Management

May 2017
What Makes Primo Unique?

Community engagement and collaboration

- Monthly Webex meetings with the PWG
- Multiple channels for collaboration (Base camp, SLACK, Ideas Exchange)
- 4 webinars with customer community
- 5 NERS enhancements since last ELUNA
- Hackathon week
- 1 ideas exchange for dinner...
A year Ago – ELUNA 2016.....

Expand and Enrich Discoverable Content

Promote Open access
- A company-wide focus: Unique collections, discovery index, linking, resource management tools
- Today: Over 220 M index items identified as “Open Access”
- Roadmap focus areas:
  - Review and index additional openly available content
  - Index and externalize institutional repositories
  - Improve discoverability of OA items – search, filters, indicators, reports

Enhance content coverage
- Community driven: NERS voting, Idea Exchange Content forum (New!)
- Finalizing remaining Primo-Summon content gaps

Enrich discovery with controlled vocabulary

Leverage multimedia content
- Enrich discovery experience with video content (e.g. Alexander Street)

Search and Find – Highlights

Increase the result mix for ambiguous topic searches (1 – 3 words)
  • Provide a mix of overview and specialized research material

Continuous adjustments to the ranking algorithm

Increase glanceability and linking for Primo Central preferred records in a group
  • Enrich preferred record with fields from other records in the same group
Search and Find – Coming Next

- New algorithm for CJK language search
- Extension to mixed result list
- Search expansion with controlled vocabulary
Clicking search is just the beginning of the research journey

Hegel, Naturalism and the Philosophy of Nature
Stone, Allison

In this article I consider whether Hegel is a naturalist or an anti-naturalist with respect to his philosophy of nature. I adopt a cluster-based approach to naturalism, on which positions are more or less naturalistic depending how many strands of the cluster naturalism they exemplify. I focus on two strands: belief that philosophy is continuous with the empirical sciences, and disbelief in supernatural entities. I argue that Hegel regards philosophy of nature as distinct, but not wholly discontinuous, from empirical science and that he believes in the reality of formal and final causes insofar as he is a realist about universal forms that interconnect to comprise a self-organizing whole.

Primo New UI

Over 100 live customers!

Out-of-the-box or customized

Great feedback from users
First look at Primo’s new UI

They did a great job and developed a UI that is responsive, modern and (mostly) easy to use

https://libux.co/primo-user-interface/
Few Customers Examples
Let’s Have A Look ....

How does this work?

Primo provides simple, one-stop searching for books and e-books, videos, articles, digital media, and more.
Primo also helps you manage your research. Sign in in order to:

- Renew books and videos
- Create favorites lists
- Export citations to RefWorks and EndNote Web
- View full search results. (Some databases, only show results when you’re signed in.)

Where can I get help?

Ask a librarian how to start your search

Questions? Comments?

Let us know what you think!
And there’s much more to come...

Community in Action: Primo UI Hackathon Week

**GOALS OF THE HACKATHON**

- create NUI views for your individual institutions
- discuss features to help your institution to go live
- hear about the roadmap of features planned for H1 2017
- team up with like-minded participants on a function/feature/view (instead of everyone rolling the same thing)
- see participant work on Friday.
- share/contribute to GitHub
Primo Open Discovery Framework – Essentials

Customize, Develop & Collaborate

Immediate display of changes

Manageable upgrades

Simple way to display default ‘factory’ UI

Share with the community
Are you ready for the Open Discovery Challenge!?

Develop on the new Primo UI, share with the community, and... compete for a prize!

Play to win:
1. IGeLU/ELUNA Ticket + online learning course of your choice (value $500)
2. Online learning course of your choice (value $250)

And there’s more!

Linked Data

Seamlessly enrich the user interface with linked open data from external sources related to the records discovered.

Expose library records in common schemas to be indexed by Internet search engines.
Next year is going to be even more exciting...
