Moving Forward

- Enhancement requests will be handled via Idea Exchange or via the newly formed RUG working groups.

- It is recommended that the working groups will be used for more fundamental issues that require discussion and design, while Idea Exchange will be used for more lightweight issues.

- Salesforce will be used from now on solely for bug reports and other technical issues.

- Customers can decide to migrate their Salesforce cases to Idea Exchange or the RUG working groups:
  - Salesforce enhancements will be automatically closed in 3 months from now.
Thank You!
