Release Notes

April 2019

What's New – April 2019

What's new in this release?

- ✓ Calendar View
- ✓ Newsletter improvements
- ✓ Expanded export options

Overview & Benefits

- View any results set as a calendar by deadlines
- Easily import Pivot calendar into your own calendar application (Outlook, Google, iCal)
- Select multiple curated lists or searches to include in Newsletters
- Set default sort order for Newsletter results (title, sponsor, deadline or dollar amount)
- User can easily export results in with custom options

ROSES 2019: Understanding Changes in High Mountain Asia

Deadline Information:

Date	Certainty	Type	Mandatory	Invite Only	Note
16 Apr 2019	Confirmed	Notice of Intent	No, but suggested	No	
12 Jun 2019	Confirmed	Application	Yes	No	

Amount:

- Expected program budget for first year of new awards: ~\$3.0M per year
- Number of new awards pending adequate proposals of merit: ~6-12 of varying amount and scope
- Maximum duration of awards: 3 years

Abstract:

High Mountain Asia (HMA), extending from the Hindu Kush and Tien Shan in the west to the Eastern Himalaya, is the world's largest reservoir of perennial glaciers and snow outside of the Earth's polar ice sheets. The region is home to a range of...

Subject: Investigator Initiated Research in Computational Genomics and Data Science (R43/R44 Clinical Trial Not Allowed)

Location: [Dropdown]

Start time: Fri 4/5/2019 12:00 AM Eastern Time (US & Canada) [All day event checked]

End time: Fri 4/5/2019 12:00 AM Eastern Time (US & Canada)

The purpose of this funding opportunity announcement (FOA) is to invite applications for a broad range of research efforts aimed towards commercial product development in computational genomics, data science, statistics, and bioinformatics relevant to one or both of basic or clinical genomic science, and broadly applicable to human health and disease. This FOA supports genomics research developing innovative analytical and computational commercial products, methodologies, and approaches, early stage development of commercial tools and software, and refinement or hardening of software and tools of high value to the biomedical genomics community. Work supported under this FOA should be enabling for genomics and be generalizable or broadly applicable across diseases and biological systems.

Many enhancements in this release were inspired by feedback and requests from customers.

We encourage you to visit the Idea Exchange to share your ideas for improvements with the Pivot community.

The image shows a banner for the ExLibris Idea Exchange. On the left, the ExLibris logo is displayed with the tagline 'a ProQuest Company' and 'idea|exchange' below it. To the right of the logo is a navigation bar with links for 'Ex Libris', 'Knowledge Center', 'Contact Support', and 'Developer Network'. The main content area has a blue background with a network pattern. It features the text 'Have an Idea for Ex Libris?' on the left. In the center, there are three icons: a lightbulb, a thumbs-up, and two speech bubbles. Below each icon is a corresponding action: 'Share your ideas', 'Support your favorite ideas', and 'Get feedback on popular ideas'.
