Defect fixes

Applying the Revision

The following packages are released:

sfx-sw-update-4.10.9.run

sfx-extra-update-4.10.9.run

For directions on applying the revision, refer to the **SFX KB Update section** of the *SFX General User's Guide*.

Highlights

Usually, we add enhancements for you in every quarterly SFX release. However, for this (September) release and the next release, we are taking a backseat, focusing on internal SFX enhancements that will be needed when our Primo/SFX customers move to CDI and Ex L.

This release includes the following SFX Infrastructure Upgrade:

- MariaDB Bi-Yearly update

SW Changes

Issue Type	Components	Summary	Documentation Required	Changed Files	Case Number	Jira Number
Improvement	Infrastructure - MariaDB	Upgrade of MariaDB with Bi-Yearly update.		revision_maker/applyextra/extra.conf		SFX-7848
Defect	Back Office - KBManager	Fixed the problem with KBManager > Target search introduced by changes in the June Service Pack 4.10.8.		lib/DBLayer/Interface.pm	700509	SFX-7931
Defect	Google Scholar Registration	Fixed the problem with using SFXAdmin with HTTPS and using the Google Scholar registration section returning a security error page.		config/google_scholar_registration.config_	664919	SFX-7928
Defect	Back Office - Categories	Fixed the problem in SFXAdmin > Object > Category functionality. Sub-categories failed to be added to an object. This problem has been fixed.		sfxadmin/search_objects.cgi	670446	SFX-7926
Defect	Google Scholar Registration	Changed Google Scholar registration to use ASCII institute IDs in the list of customers to align with corresponding GS holdings files names harvested by Google.		cgi/public/registration.cgi		SFX-7923
Defect	General - Other	Fixed the problem with creating new instances related to updating configuration files.		config/sfxctrl.config		SFX-7900
Defect	Utilities - Create/Drop Instance	Fixed the problem with drop_instance.pl failing when there are backup files under data/<instance> due to permissions issues.		lib/Manager/Instance/Drop/Data base.pm		SFX-7759
