Applying the Revision

The following packages are released:

sfx-sw-update-4.10.10.run

sfx-extra-update-4.10.10.run

For directions on applying the revision, refer to the **SFX KB Update section** of the *SFX General User's Guide*.

Highlights

Usually we add enhancements for you in every quarterly SFX release. For this December release and the next release however, we are taking a backseat, focusing on internal SFX enhancements that will be needed when our Primo/SFX customers move to CDI, Ex Libris new Central Discovery Index. The enhancements will only be visible once we release CDI and with the start of the CDI enablement phase.

SW Changes

Issue Type	Components	Summary	Documentation Required	Changed Files	Case Number	Jira Number
