

# Collaborative Networks

Update on New and Upcoming Features

Dana Moshkovits | Director of Product Management

- Publish Shared Network Zone Electronic Resources
- Assign/Reassign Bibliographic/Authority Records in Network Shared Catalog
- Joint Use Workflow -Inventory Transfer between Institutions

# Publish Shared Network Zone Electronic Resources - General Publishing

# Publish Shared Network Zone Electronic Resources

## General Publishing

- Simplify the ability to share electronic holdings with any 3rd party system
- Consortia members will be able to publish shared electronic resources which are managed on their behalf in the Network Zone
- It will be possible to create a General Publishing Profile in the Institution Zone which includes a set of electronic resources managed in the Network Zone and that are available to the institution, and publish them to any 3rd party
- TimeLine: 2020 Q4

# Assign/Reassign Bibliographic/Authority Records in Network Shared Catalog

# Assign/Reassign Bibliographic/Authority Records in Network Shared Catalog

- Simplify the ability to share and manage cataloging activity and expertise across the Network
- Consortia members will be able to share & manage cataloging activity across the Network by assigning records for cataloging to any user of the Network
- Today a cataloger can assign records for cataloging only to catalogers that are part of the institution, with this new functionality a cataloger will be able to assign a record for cataloging to any cataloger within the Network
- Timeline: 2021 H2

# Joint Use Workflow -Inventory Transfer between Institutions

# Joint Use Workflow -Inventory Transfer between Institutions

- Automated joint use of resources across members in the consortia  
Purchasing is done in the institution that is paying (purchasing institution)
- Consortia will be able to define institutions that jointly use resources
- Each institution that purchases material to be housed at a different institution will be able to define the following (for each host institution):
  - A library/location where all joint use items should be placed
  - The library/location in the host institution
  - If item needs to be placed in a work order for additional processing in the host institution
  - If item in purchasing institution should be suppressed/withdrawn
  - if items should be created in the host institution automatically or manually
- Timeline:2021 H1

# Thank you!
