

SITESENSE® TECHNICAL REQUIREMENTS

REQUIREMENTS TO USE SITESENSE

The SiteSense application can run on any computer with an Internet connection and supports the following browsers:

Browser	Comments
Google Chrome™/Chrome for Android, most recent stable version	Chrome applies updates automatically. SiteSense makes every effort to test and support the most recent version. There are no configuration recommendations for Chrome.
Microsoft® Internet Explorer® versions 11 and Edge	If you use Internet Explorer, we recommend using the latest version that SiteSense supports. Apply all Microsoft software updates.
Apple® Safari® versions 5.x, 6.x and 7.x on Mac OS X and iOS	

Note: For all browsers, enable JavaScript, cookies, and TLS 1.2. If TLS 1.2 isn't available, enable TLS 1.1. Browsers that don't support TLS 1.1 or TLS 1.2 won't be able to access SiteSense.

Requirements for some features:

120 MB of free disk space

256 MB of available memory

256 kbps internet connection
