

What's New In Procore

We released 50 product enhancements from April 2020 - June 2020.

To see the full list of updates, visit www.procore.com/whats-new.

FEATURED UPDATES

Real-Time Labor Costing

Monitor labor costs in real time, identify at-risk scopes of work, and proactively make decisions that protect budgets. [Learn more.](#)

Geofence Clock-in & Out Reminders

Employees are kept accountable with reminders to clock in and out when they enter or exit jobs so you don't have to. [Learn more.](#)

Save time and reduce administrative burden.

Your business is all about labor power—the more time you can save the better. These features will help you reduce your administrative burden, save time, and increase productivity.

Split timesheets to time types.

Review a worker's time across time type columns and reallocate hours by splitting a submitted entry into new timecards. [Learn more.](#)

Export Sage 300 CRE timesheets.

Eliminate the need to manually manipulate or double enter Timesheet data into Sage 300 CRE. [Learn more.](#)

Meet your changing needs with more platform flexibility.

Navigate the current economic climate with features aimed to help maximize your platform's ability to flex with your changing business needs.

Customize fields and configure fieldsets.

Capture and track the information that is most applicable to your teams and strengthen your depth in data collection and reporting. Learn more [here](#) and [here](#).

Leverage industry-sourced resources.

See the new trade-specific checklists available in your Inspection Library, including these Forms: [Job Hazard Analysis](#), [Hot Work Permit](#), and [Toolbox Talk Sign-in Sheet](#).

If you have suggestions for features that would make your work easier, tell the Procore Development team by submitting and voting on ideas in the [Customer Feedback Forum](#).

Get More Value from Procore With Our Newest Integrations

The Procore App Marketplace has over 200 partner solutions that integrate seamlessly with our platform. So you can work the way you want to, all without ever leaving Procore.

Easily manage your workforce with Arcoro.

Consolidate essential HR processes in one place, allowing hires to easily manage cost codes, track attendance, and record hours. [Learn more.](#)

Connect Procore Meetings with Microsoft Teams or GoToMeeting.

Efficiently collaborate even while remote by connecting Procore's Meetings tool to Microsoft Teams or GoToMeeting. These integrations are made for quick and easy creation of video conference calls that accommodate all stakeholders on a project with any device. [Learn more.](#)

Feel confident taking on more work with Billd.

Billd offers a cost-effective financing option for self-perform contractors for 120-day terms on material purchases for commercial jobs. With the embedded experience, users can create material purchase requests in Billd directly from projects in Procore. The integration automatically syncs projects and keeps them up to date in both systems. [Learn more.](#)

Manage and schedule labor requests with LaborChart

LaborChart provides a workforce scheduling solution that allows operations teams to manage labor requests from project teams, dispatch workers to jobsites, and identify hiring needs—all while keeping the entire construction team informed of changes and updates. See and interact with project-specific labor schedules in Procore with an embedded experience. [Learn more.](#)

Safely track your workforce with SmartBarrel's rugged kiosk and integration.

Smartbarrel's time entry solution leverages image recognition to offer contactless confirmation of worker presence and required PPE. This allows workers to easily and safely clock in and out, while providing an automatic feed to Procore Timesheets for real-time productivity tracking. [Learn more.](#)
