

# What's New in Procore

We released 34 product enhancements since July 2020 - September 2020.  
To see the full list of updates, visit [procore.com/whats-new](https://procore.com/whats-new).

## Empowering Field Teams

Enable field teams with the best tools to do their best work. These features will increase collaboration while capturing real-time project information. Allowing for an unbroken loop through the platform from field to office and back.

### Track out of scope work with T&M Tickets

Distribute T&M tickets from your mobile device to provide more visibility to all parties.

[Learn More](#)

### Coordination Issues on iOS

Capture and attach all relevant details like location on the model, perspective from drawings, and photos.

[Learn More](#)

### Download the drawings that matter most

It's now easy to download current drawing sets by discipline to save you time, data, and storage.

[Learn More](#)

### Redesigning and Enhancing Change Events on Mobile

Enhanced functionality like budget codes and UOMs make capturing potential changes from the field even easier. [Learn More](#)

## Streamline Project Information and Communication

Make sure you have the information you need at your fingertips, with enhancements to the platform that help streamline communication, provide even easier access to data, and encourage collaboration across all stakeholders.

### 'Act as RFI Manager' in the RFI tool

Users are able to take actions with limited visibility to the items they are associated with saving admins time.

# Get more value from Procore with our newest integrations.

The Procore App Marketplace has over 200 partner solutions that integrate seamlessly with our platform. So you can work the way you want to, all without ever leaving Procore.

## Easily sync or migrate files to Procore from your cloud storage repositories with SkySync

SkySync is an enterprise content orchestration platform that connects with Procore to facilitate the transfer of files and folders into the construction management platform. SkySync's Procore connector allows you to analyze, migrate, copy, and synchronize files between your Procore project documents and your cloud storage repositories and/or on-premise network file shares.

## Use Evercam to get a live view of your construction site in Procore to manager your site remotely

Access your project cameras with the embedded Evercam Live View from your the Procore Dashboard. [Learn More](#)

## GTK HingePoint: an integration partner and a Certified Consultant

HingePoint is a systems integration and development company specializing in construction and real estate clients. They are especially strong with Microsoft products and have already built Marketplace integrations for MS Teams and Sharepoint. In joining the Certified Consultant program, they will be able to offer valuable services to Procore clients in building and configuring integrations into the Procore platform. [Learn More](#)

## Integrate your Induction Experience with Procore Through Online Induction by WorkMetrics

Keep track of your worker's induction status on your Online Induction portal with this embedded application in Procore. By logging in to your OnlineInduction.com account via an embedded experience within Procore you can quickly check if a user is inducted, download and print induction certifications, and register your Procore users for new inductions.
