# License Price Sheet

Licenses are for a suite of Web Services hosted by HingePoint on Azure that integrate with:

- SharePoint and MS Teams Document API
- Procore Document API
- Security tokens that ensure user level security access
- Logging service and queueing service that will process all requests even if server interruptions or error occur on networks, outages, and internet connections
- Follow the File and Folder functions of Create, Read, Update, and Delete
- Meta data updating calls

## HingePoint Hosted Solution – Package 1

| Software                  | Package 1  | Price           |
