

# What's New In Procore?

Here's what we've been up to from October 2018 - December 2018:

---

## Featured Updates:

### NEW PRODUCT!! - DESIGN COORDINATION

Bridge the gap between VDC teams, the entire project team, and coordination technology solutions. This new product integrates the process of 3D coordination into Procore in a centralized location. Elevate coordination issues directly to RFIs and improve project performance and predictability through a streamlined coordination process. [Learn more.](#)

### GET IMMEDIATE INSIGHT INTO THE HEALTH OF YOUR PROJECTS

Health Dashboard is a simple but powerful feature that turns data into insights. Get real-time updates about project and financial performance across your portfolio in one unified view. [Learn more.](#)

### CREATE OBSERVATIONS FROM DRAWINGS, IN THE FIELD

On iOS and Android devices, you now have the ability to create new observations directly from your project drawings. Link existing observations on web. [Learn more.](#)

### MANAGE MULTIPLE PRIME CONTRACTS IN PROCORE

Create and manage multiple prime contracts within the same project. Tie change events, direct costs, or invoices back to this new prime contract for GMP projects, phased projects, or a project that has multiple project owners. [Learn more.](#)

## Project Management Updates & New Releases

### IMPROVE SUBCONTRACTOR BIDDING PROCESS

You now have the option to attach individual files to bid packages. This will help increase subcontractor bid submission rates within Procore, alleviate long download times for your subs, and reduce irrelevant bid documents sent to your subs. [Learn more.](#)

### A BETTER PHOTO EXPERIENCE ON MOBILE

Improvements to how daily photos are organized and captured on mobile (iOS & Android) help save your field teams time. [Learn more.](#) [Learn more.](#)

### REVIEW A DRAWING SET FASTER

You now have the ability to confirm a batch of selected drawings at once. [Learn more.](#)

## Quality & Safety Updates & New Releases

### SIMPLIFIED DAILY LOG ENTRY

Display more of your logs' information and less scrolling for an improved workflow. Additionally, each log has been updated with autocomplete fields when typing in fields like "Location" or "Trade" so you don't have to scroll through the dropdown list. [Learn more.](#)

### RESOLVE OUTSTANDING OBSERVATIONS FASTER

You can grant users the ability to view and respond to observations that have been assigned to other team members within the same company. [Learn more.](#)

### EASILY RECORD MULTIPLE WEATHER CONDITIONS

We have redesigned the weather section of the Daily Log so you can add multiple conditions if it changes throughout the day. [Learn more.](#)

### CREATE OBSERVATIONS FROM DRAWINGS, IN THE FIELD

On iOS and Android devices, you now have the ability to create new observations directly from your project drawings. Link existing observations on web. [Learn more.](#)

### OBSERVATIONS - OFFLINE MODE ON MOBILE

Observations can now be downloaded to your iOS mobile device, similar to Punch, RFIs, and Submittals, for offline use. [Learn more.](#)

## Construction Financials Updates & New Releases

### MANAGE MULTIPLE PRIME CONTRACTS IN PROCORE

Create and manage multiple prime contracts within the same project. Tie change events, direct costs, or invoices back to this new prime contract for GMP projects, phased projects, or a project that has multiple project owners. [Learn more.](#)

### SAVE TIME WITH BULK BUDGET MODIFICATIONS

Easily create up to seven budget modifications at a time within the same window so you don't have to update your budget item by item. [Learn more.](#)

### ENHANCED CUSTOM REPORTING FOR CONFIGURED BUDGET VIEWS

You can now create custom reports based on a configured budget view, providing greater flexibility to adapt to different company processes and workflows. [Learn more.](#)

### STREAMLINE PURCHASE ORDERS ON MOBILE

Your field teams can now create and edit a Purchase Order from their mobile iOS device. This saves them a trip back to the office or jobsite trailer and gives Project Managers real-time visibility into purchases from their field teams. [Learn more.](#)

## Construction Financials Updates & New Releases, continued

### IMPROVED NAVIGATION WITHIN THE COMMITMENTS TOOL

You can now access the schedule of values tab when creating new commitments by using the new “Create & Enter SOV” button. [Learn more.](#)

### AUTOMATED INVOICING TASKS

With our improved invoice settings, you can now enable digest emails to subs on status of their invoices, custom footer text, sub approval notifications, and Subcontractor Claimed Amount displayed on invoices. [Learn more.](#)

### DOUBLE ENTRY FREE SAGE 300 CRE CONNECTOR

Save time and money by syncing your Prime Contracts, PCCOs, and Subjobs to completely eliminate double entry between Procore and Procore Field Financials. [Learn more.](#)

### SAVE TIME WITH THE SAGE 100 CONTRACTOR CONNECTOR

Streamline the approval process for time-sensitive tasks such as commitments and change orders and eliminate the need for manual double-entry by allowing users to transfer data between Procore and Sage 100 Contractor. [Learn more.](#)

### SAVE TIME WITH THE ENHANCED INTEGRATION BY RYVIT THAT CONNECTS PROCORE AND \*VIEWPOINT® VISTA™

Sync your Prime Contracts and PCCOs to eliminate double entry; saving you time and money. [Learn more.](#)

\*This connector is the product of a partnership between Procore and Ryvit, a third-party developer. Viewpoint, Inc. is not affiliated with this connector. All Viewpoint® and Vista™ marks and logos are owned by Viewpoint, Inc.

## Field Productivity Updates & New Releases

### CUSTOM SIGNATURE TEXT

Ensure your business' specific Timesheet language requirements are met by customizing the text for employee signatures. [Learn more.](#)

## Other Updates & Enhancements

### GET IMMEDIATE INSIGHT INTO THE HEALTH OF YOUR PROJECTS

Health Dashboard is a simple but powerful feature that turns data into insights. Get real-time updates about project and financial performance across your portfolio in one unified view. [Learn more.](#)

### EASY ACCESS TO YOUR PROCORE ACCOUNT DETAILS

Get a high-level overview of your company's account, including important contacts, licensed tools, and new product offerings. [Learn more.](#)

## Other Updates & Enhancements, continued

### BETTER MANAGE STORAGE ON YOUR MOBILE DEVICE

Better manage and store large amounts of Procore data on your Android mobile device with the new SD memory card opt-in feature.

[Learn more.](#)

### FIND CONTACTS BY VENDORS MORE QUICKLY

Spend less time searching for contacts and vendors in the company and project level directories with the newly added directory search fields. [Learn more.](#)

### A FASTER WAY TO MANAGE YOUR USERS

The new Bulk Action option makes it easy to remove inactive vendors and companies from a project in bulk, as well as invite/reinvite a batch of users to join a Procore. [Learn more.](#)

[Learn more.](#)

### ADDITIONS & UPDATES TO THE APP MARKETPLACE

**Our newest integrations include:** PINS Advantage, FileBound, Bullclip, Grit Virtual, Sage 100, Xero with OneCore, Verity, OpenSpace, Honest Buildings, FieldChat, Work Zone Cam, Sensera SiteCloud Media Exporter, Eyrus, and GoFormz

**Updates have been made to the following integrations:** Hangar Jobsite, onTarget, Sage 300 CRE, Integration by Ryvit Viewpoint® Vista™, and Holobuilder 360 Photo Site Documentation.

[Visit the App Marketplace.](#)

### QUICKLY IMPORT NEW CONTACTS ON WINDOWS 10

You can now use the Imports tool for Windows 10 to import a list of vendors or users into your Project level or Company level Directory tool. The Imports tool provides a quick and efficient process for adding contacts to Procore. [Learn more.](#)
