If you have suggestions for features that would make your work easier, tell the Procore Development team by submitting and voting on ideas in the [Customer Feedback Forum](#).

Get More Value from Procore With Our Newest Integrations

The Procore App Marketplace has over 200 partner solutions that integrate seamlessly with our platform. So you can work the way you want to, all without ever leaving Procore.

Hire, manage, and grow top talent with Arcoro.

Arcoro is an HR software management solution built for managers to track cost codes, attendance, and hours. The integration transfers employee data into the Procore Directory making it easy to build crews and get people paid. [Learn more.](#)

Monitor and manage your organization's performance with Prophix.

Prophix CPM platform provides enhanced visibility to projects and financials from a customer's ERP. Users can centralize all project and corporate financials, estimation, and CRM data into a single solution for forecasting, budgeting, and reporting. [Learn more.](#)

Effectively communicate to your workforce with LaborChart.

The LaborChart embedded app and integration allows users to schedule their workforce and request more resources from directly inside Procore. This makes it easy to balance labor capacity, minimize costs, and communicate updates through assignment alerts, project bulk messages, and emergency notifications. [Learn more.](#)

Keep cloud-based storage project files up to date with SyncEzy.

SyncEzy is a one-stop Procore integration provider for many cloud-based file sharing applications including Dropbox, Google Drive, One Drive, and Sharepoint. The integration allows for automatic sync of files and folders from Procore's Documents tool into your document management solution of choice, eliminating the need for double entry. [Learn more.](#)

Conduct and respond to daily health and wellness checks with [Nyfty.ai](#).

Nyfty.ai's health survey bot creates AI-based automation bots for construction workflows. Their solution allows for manpower, employee health information, inspections, and other data to be collected and updated from the field. This helps you save time and get the most accurate information directly from a project jobsite into Procore. [Learn more.](#)
