

# 8x8 Virtual Office Editions

A complete business communications solution

“8x8 offers NetSuite the critical efficiencies we need to unify our worldwide offices and scale globally.”

—Doug Brown  
CIO, NetSuite

A powerful, modern and easy-to-use cloud business phone system that is truly unified

## Powerful features

With powerful business communications, collaboration and contact center features, 8x8 Virtual Office Editions include everything your employees need to efficiently communicate with customers, suppliers, and co-workers. Business voice, auto attendant, audio and video conferencing, and instant messaging are all included.

## Designed for the modern workforce

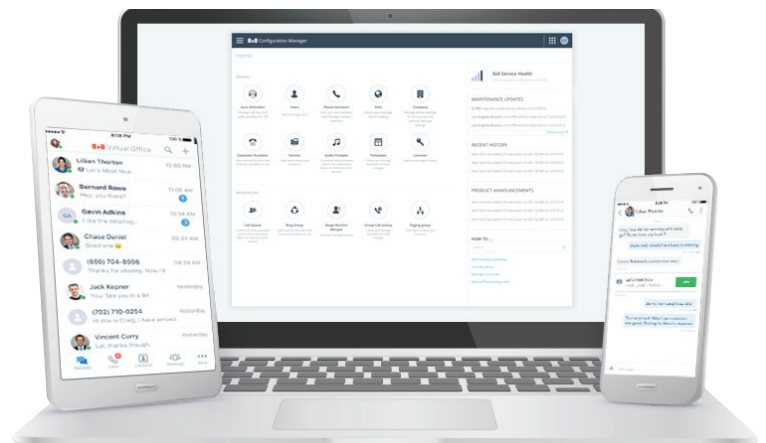

Feature-rich mobile and desktop apps allow your employees to work from the device they're most comfortable with. With modern smartphone, tablet and desktop apps, users are able to access voice, messaging, video and web conferencing from a single unified software experience that allows them to cut the cord from traditional desk phones.

## Easy-to-use and manage

8x8's Virtual Office Editions makes business communications elegant and simple to configure for administrators. 8x8's web-based Configuration Manager allows you to easily manage your cloud phone system from anywhere, anytime.

## Improve customer engagement

Contact center inbound calling along with outbound dialing capabilities empower your sales and customer service teams like never before. A web-based user interface and instant provisioning make it easy to manage and deploy. Break down communications silos between employees and agents to increase time to revenue.
