

DASHBOARD DATA ANALYTICS

DAN HEARDEN

Business Analyst, Cartegraph

Session Objectives

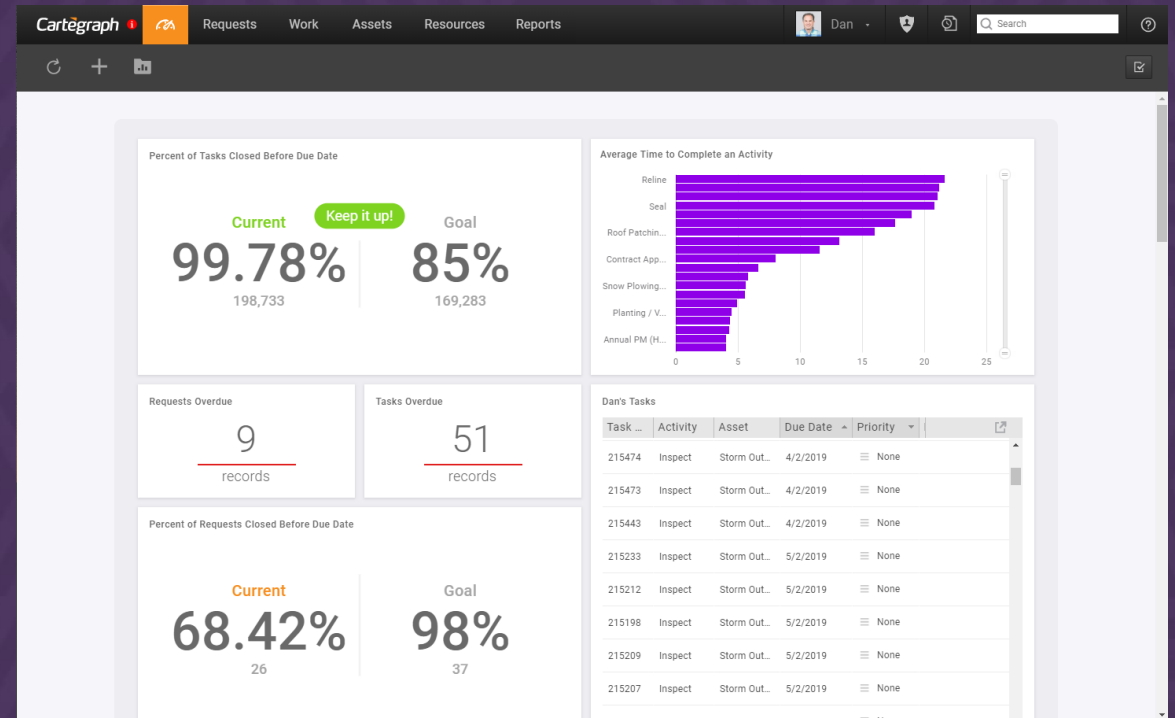

By attending this session, you'll be better able to:

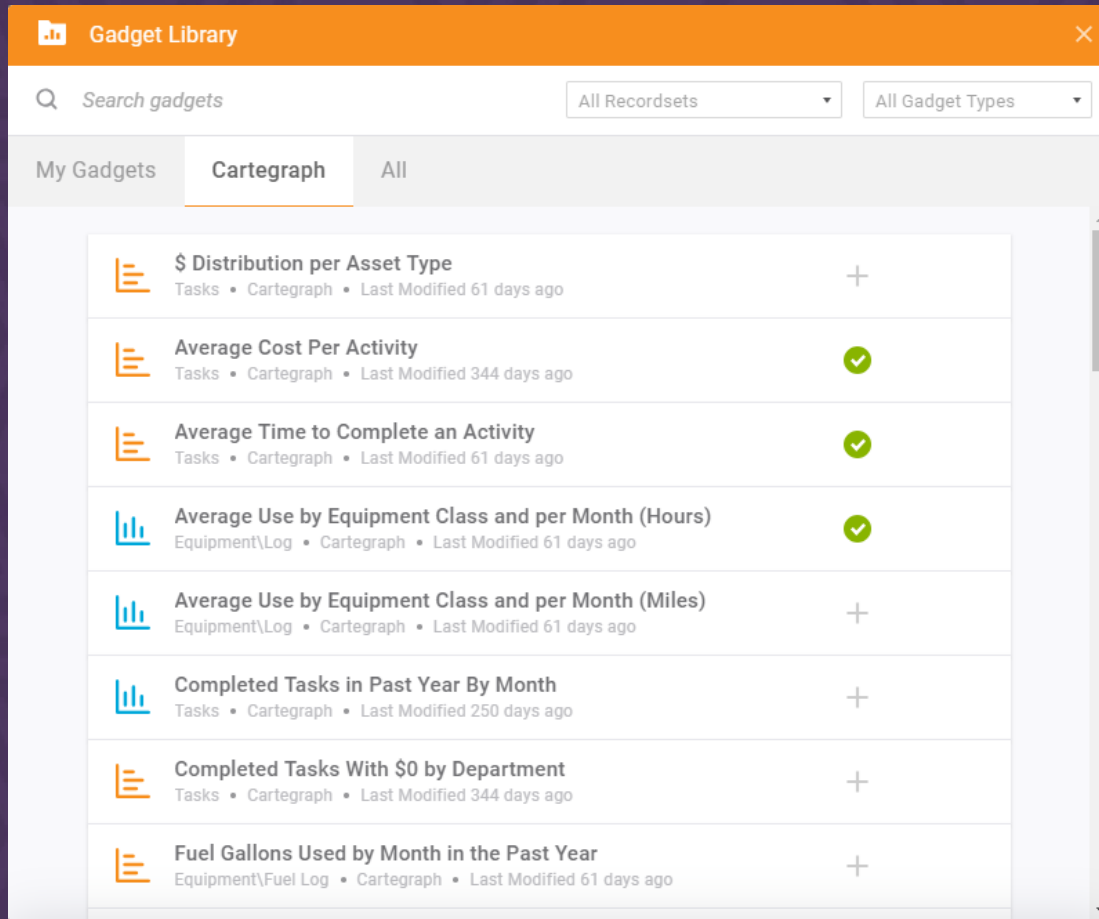

- Customize a dashboard to meet your unique needs
- Analyze data with column, bar, pie, list and number gadgets
- Monitor Key performance indicators and track progress toward a goal

Where do we start?

- Capture – What data are we collecting?
- Analyze – What is the data telling us right now?
- Prepare – Set a goal to be accountable

How do we Start?

- Gadget Library is a good starting point
- Visualization types – Bar, Column, List, Number and Pie
- Key Performance Indicators (KPI's)
What are my goals?
