

Kofax Mobile ID Capture

Release Notes

Version: 1.5.0

Date: 2016-05-26

© 2013- 2016 Kofax, 15211 Laguna Canyon Road, Irvine, California 92618, U.S.A. All rights reserved.
Use is subject to license terms.

Third-party software is copyrighted and licensed from Kofax's suppliers.

This product is protected by U.S. Patent No. 6,370,277.

THIS SOFTWARE CONTAINS CONFIDENTIAL INFORMATION AND TRADE SECRETS OF KOFAX.
USE, DISCLOSURE OR REPRODUCTION IS PROHIBITED WITHOUT THE PRIOR EXPRESS
WRITTEN PERMISSION OF KOFAX.

Kofax, the Kofax logo, Kofax product names, and Lexmark stated herein are trademarks or registered trademarks of Kofax and Lexmark in the U.S. and other countries. All other trademarks are the trademarks or registered trademarks of their respective owners.

U.S. Government Rights Commercial software. Government users are subject to the Kofax. standard license agreement and applicable provisions of the FAR and its supplements.

You agree that you do not intend to and will not, directly or indirectly, export or transmit the Software or related documentation and technical data to any country to which such export or transmission is restricted by any applicable U.S. regulation or statute, without the prior written consent, if required, of the Bureau of Export Administration of the U.S. Department of Commerce, or such other governmental entity as may have jurisdiction over such export or transmission. You represent and warrant that you are not located in, under the control of, or a national or resident of any such country.

DOCUMENTATION IS PROVIDED "AS IS" AND ALL EXPRESS OR IMPLIED CONDITIONS, REPRESENTATIONS AND WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT, ARE DISCLAIMED, EXCEPT TO THE EXTENT THAT SUCH DISCLAIMERS ARE HELD TO BE LEGALLY INVALID.

About This Release

The software and documentation is available from the Kofax Fulfillment Site: <https://delivery.kofax.com/>. A representative from your company registers on this site to download the software and documentation.

If you are already a Kofax customer, contact your Kofax Professional Services Regional Manager to discuss and plan your upgrade. New customers receive an email from Sales after completing their agreement with Kofax. The email contains a serial number to use when registering on the fulfillment site. Registration provides customers with the credentials needed to download the software.

Note Kofax Mobile ID Capture uses a third-party solution for ID support. The list of supported countries and document types is limited to those supported by the third party licensed solution. See [Appendix A](#) for a list of supported states and countries.

To access the software for this release:

1. Log in to the Kofax Fulfillment Site (<https://delivery.kofax.com/>).
2. From the Your Software list, select **Kofax Mobile ID Smart Mobile Component**.
3. Under Product Downloads, locate the desired version.

The available packages include all the software, documentation, and license keys for the release.

Version Information

The Kofax Mobile ID Capture 1.5.0 release is identified by build number 1.5.0.0.0.224.

Resolved Issues

This section describes issues resolved in the following releases.

Installing as a Non-Administrator Fails

When installing the Kofax Mobile ID Capture components as a non-administrative user, the install correctly prompted for administrative elevation. However, the portion of the installation that created `C:\Program Files (x86)\Kofax\MobileIDCapture` silently failed. The result was an apparently successful installation but with missing files. (618746)

Affected platforms and/or devices:

- All

Extraction Affected With Uncropped Front and Back ID Images

When sending only the uncropped front image of a Singapore ID with `xCropImage` set to true, the results for `FirstName`, `LastName`, `DOB`, and `Gender` fields were returned correctly. But when sending the front and back images together, the results for these fields were incorrect. (610258)

Note When both front and back document images were sent together, this issue may have affected other types of IDs as well.

Affected platforms and/or devices:

- All

Kofax Mobile ID Capture Installed the Web Service in IIS Default Web Site

Kofax Mobile ID Capture installed the Web service under the Default Web Site in IIS. However, the server may have been configured with the MobileSDK in another Web site, which would have prevented Kofax Mobile ID Capture from working. (579189)

Affected platforms and/or devices:

- All

Known Issues

This section describes issues that you may encounter while using Kofax Mobile ID Capture. Work-around solutions are provided, as applicable.

IDNumber not Returned when Submitting Image with Barcode String

When submitting an ID / driver license image with a bar code string via the Barcode parameter, the IDNumber field is not returned. (711016)

Affected platforms and/or devices:

- All

Workaround: Reference the License field, which is returned and contains the ID number.

Card Extraction Fails When Requesting Face/Signature Images

Extraction fails when capturing an invalid front or scanning a valid bar code. Extraction also fails when requesting GetFacelImage and/or GetSignatureImage. (707660)

Affected platforms and/or devices:

- All

Workaround: None.

Server Reboots Automatically During Upgrade

If the file `C:\Program Files (x86)\Kofax\MobileIDCapture\Unwise.exe` exists when an upgrade to 1.5 is started, the following message is displayed by the installer: "The current version of Kofax Mobile ID Capture must be manually uninstalled prior to installing this version. Please note that a system reboot may be required. Click OK to exit the wizard." The Mobile ID installer then exits without installing any files. (706216)

Mobile ID Processing Slow for Thailand IDs

Some IDs from Thailand may take slightly longer to process than average. (674560)

Affected platforms and/or devices:

- All

Mobile ID Processing Slow for China IDs

Some IDs from China may take slightly longer to process than average. (674559)

Affected platforms and/or devices:

- All

Workaround: None.

Face Image Extraction Fails for International IDs

With the `xExtractFaceImage` parameter set to `True`, IDs from Japan, Korea, and Ecuador fail. IDs from Malaysia sometimes fail. (612747)

Affected platforms and/or devices:

- All

Workaround: None.

Kofax Mobile ID Capture Requires Multiple Machines

Because Kofax Mobile ID Capture 1.2 is running on a single core, to avoid performance degradation, it now requires the same number of machines (setup as NLB) as the number of CPUs that your server has for DL 1.1. (560468)

Affected platforms and/or devices:

- All

Workaround: None.

Appendix A: Table of Supported Locations and Documents

Region	Country/ State/ Province	State	Document	Auto-Detect?	Barcode	Doc Type Returned	Notes
