About Kofax Search and Matching Server technical specifications

Kofax Search and Matching Server is a standalone 64bit Server application that comes bundled with Kofax Transformation Modules and Kofax Total Agility. It is used to host database indexes in which other applications can search in a fault-tolerant manner and it is designed for large database tables and many users querying it.

Product requirements

Specification	Description
Server Operating Systems	Windows Server 2016 (KTM 6.2.0.4 required) Windows Server 2012 R2 Datacenter/Standard 64bit Windows Server 2012 Datacenter/Standard 64bit Windows Server 2008 R2 SP1 and SP2 Datacenter/Enterprise/Standard x64 Edition
