About Kofax Analytics for Capture technical specifications

Kofax Analytics for Capture™ provides optimized out-of-the-box dashboards for measuring the document processing performance, efficiency and productivity of your capture system. The technical specifications in this document are specific to Kofax Analytics for Capture 2.1.

A required amount of memory and disk space is provided. You must meet these requirements to support your Kofax Analytics for Capture system. These requirements specifically list the needs of Kofax Analytics for Capture and do not include any amount of memory or disk space required for the operating system, environment, or other software that runs on the same machine.

Product Components

Kofax Analytics for Capture includes the following components:

- **Event Sender** – Workflow Agent that runs in Kofax Capture and must be registered with Kofax Capture batch classes to send session data to the Event Listener. Session data is transmitted from Kofax Capture / Kofax Transformation Modules whenever a module is closed.
- **Event Listener** – Web service that receives session data from Event Senders (Workflow Agents) when batches are closed. The event listeners also poll the KC stats database and license server in addition to performing background processing of transitory data in the staging database before writing to the data database.
- **Kofax Insight** – BI platform that provides analytics and process intelligence for the Kofax Analytics for Capture project
- **KAFC Project** – ZIP file that includes all pre-built views, records, metrics, and roles.

Product requirements

Kofax Analytics for Capture 2.1

Hardware recommendations will vary depending on specifics of deployment scenarios. Refer to the *Kofax Analytics for Capture Administrator's Guide* for details related to deployment scenarios and sizing considerations.

Specification	Description
Minimum Hardware - Insight Server	Production system: 8 CPU + 32 GB RAM QA and Dev: 4 CPU +16 GB RAM
Minimum Hardware - Database Server	8 CPU + 32 GB RAM
Minimum Hardware - Event Listener	4 CPU +16 GB RAM
Minimum Browser Version	Internet Explorer 11, Edge 20, Chrome 45, Firefox 40, iOS Safari 8
Server Operating Systems	<ul style="list-style-type: none"> • Windows Server 2019 (Insight 6.2+) • Windows Server 2016 • Windows Server 2012 R2 Foundation, Essentials, Standard, Datacenter • Windows Server 2012 Foundation, Essentials, Standard, Datacenter • Windows Server 2008 R2 Standard/Enterprise/Datacenter (64-Bit) including all service packs
Web Servers/Web Application Servers	Microsoft IIS 7.0 or higher
DBMS	<ul style="list-style-type: none"> • SQL Server 2017 (Express, Standard, Enterprise Editions) • SQL Server 2016 (Express, Standard, Business Intelligence, Enterprise Editions) • SQL Server 2014 (Express, Standard, Business Intelligence, Enterprise Editions) • SQL Server 2012 (Express, Standard, Business Intelligence, Enterprise Editions) • SQL Server 2008 and R2 (Express, Standard, Datacenter, Enterprise Editions)

Specification	Description
	<ul style="list-style-type: none">• Oracle 12c Release 2 (12.2) - Windows, IBM AIX, HP UX, Solaris, and Linux• Oracle 12c Release 1 (12.1) - Windows, IBM AIX, HP UX, Solaris, and Linux• Oracle 11g Release 2 (11.2) - Windows, IBM AIX, HP UX, Solaris, and Linux
Required Third Party Technologies	<ul style="list-style-type: none">• Microsoft Visual C++ 2010 SP1 Redistributable• Microsoft .NET Framework 4.6.2 or higher

Required Kofax Software (minimum requirements)	<p>The minimum requirement for KC and KTM are the same as KAFC 2.0.</p> <p><u>Kofax Capture</u></p> <ul style="list-style-type: none">• 9.0.3.13<ul style="list-style-type: none">○ KAFC 2.1 WFA: Requires .NET 4.0 or later and update to RegAscCM.exe.config○ Populating new KAFC license views only supported with KC 9 Server (not standalone) and only if listener is installed on a separate machine. (Refer to KAFC 2.1 Release Notes)• 10.0.2.11<ul style="list-style-type: none">○ KAFC 2.1 WFA: Requires .NET 4.0 or later and update to RegAscCM.exe.config (Refer to KAFC 2.1 Release Notes)• 10.1.1• 10.2.0.3• 11.0.0 <p><u>Kofax Transformation Modules</u></p> <ul style="list-style-type: none">• 5.5.3.6• 6.0.1.4• 6.1.0• 6.2.0 <p><u>Kofax Insight</u></p> <ul style="list-style-type: none">• Insight 6.0.0.5 – Included with KAFC 2.1<ul style="list-style-type: none">○ Insight 6.0 Multi-tenant mode not supported• Insight 6.1• Insight 6.2<ul style="list-style-type: none">○ Adds support for Windows Server 2019
---	--

<p>Recommended Kofax Software</p>	<p>The new views in Kofax Analytics for Capture 2.x which calculate the processing times for each document have the following minimum requirements:</p> <p><u>Kofax Capture</u></p> <ul style="list-style-type: none"> • 10.1.1.10 • 10.2.1 • 11.0.0.4 <ul style="list-style-type: none"> ○ KC 11 Required for Audit views in KAFC 2.1 <p><u>Kofax Transformation Modules</u></p> <ul style="list-style-type: none"> • 6.0.2.14 • 6.1.0.8 • 6.2.0 <p>Note: KAFC 2.1 introduces new views that will calculate the remaining labor for live batches in addition to capacity planning for future jobs based on the average document processing times.</p>
<p>Languages supported</p>	<p>Kofax Analytics for Capture Dashboards:</p> <ul style="list-style-type: none"> • English • German • Portuguese (Brazilian) • Chinese (Simplified) • Japanese • French • Italian • Spanish (Castilian) • Russian • Czech • Swedish • Polish
