Chapter 1

About This Release

The release notes give you late-breaking information about Kofax Analytics for MarkView version 1.0.0. Please read this document carefully, as it contains information that is not included in other Kofax Analytics for MarkView documentation.

Version Information

This Kofax Analytics for MarkView product is identified by build number 1.0.0.0.0.57602, which is listed in the About window of the Kofax Analytics for MarkView toolbar menu.

The build number for Kofax Analytics for MarkView also appears in build-number.txt of the extracted KofaxAnalytics-1.0.0_For_MarkView.zip file.

System Requirements

The primary source of information about Kofax Analytics for MarkView requirements and dependencies on other products, including Kofax MarkView, Kofax Insight, and Kofax Capture, is the *Cross Product Compatibility Matrix*, which is available on the Kofax website at www.kofax.com. The matrix is updated regularly, and we recommend that you review it carefully to ensure success with your Kofax Analytics for MarkView product.

Chapter 2

Known Issues

This section describes issues that you may encounter while using Kofax Analytics for MarkView. Workarounds are provided, as applicable.

Add Bookmark for Reports With Hidden Data

If you click bar and line names in the legend to hide any data in a chart and add a bookmark, the Bookmark function generates a snapshot with all hidden data. (695081)

Tooltips Display Incorrect Data

In the Operator Productivity - MarkView report, tooltips for points in the Coding line chart display incorrect information. (690625)

Export to Excel Function Fails in Process Report

In the Process report, if you use the Export tab to export the report to the excel file format, the following error message appears:

```
The workbook cannot be opened or repaired by Microsoft Excel because it is corrupted.
```

Kofax Analytics for MarkView cannot export a block scheme to the excel file format. This option is available only for grids or charts. (687008)

Cross-Currency Invoices

If the Invoice Currency differs from the Payment Currency, the following Kofax Analytics for MarkView charts display invoices in wrong currency: Discounts Coming Due in the Status report, Invoices and Discounts charts in Metrics. (686908, 686162)

Add Bookmark to Browser

Mozilla Firefox and Google Chrome browsers do not support the Kofax Analytics for MarkView function to add a bookmark to a browser. (682241)

Auto Logout Feature Is Absent

If the MarkView user password changes in MarkView, the user remains logged in the Kofax Analytics for MarkView viewer even after refreshing the page. (681544)

Queues List Does Not Expand

In the QUEUES list for the Status report, when a user clicks the expand button for a queue, the list of users assigned for the queue opens. If the queue does not contain assigned users, the expand button disappears after a click. (680665)
