# About Kofax Mobile SDK technical specifications

The Kofax Mobile SDK is a software development kit for building mobile applications that capture, process, and extract information from various documents. The SDK integrates with various other Kofax products enabling development of a wide range of solutions. The technical specifications in this document are specific to the Kofax Mobile SDK, version 3.4.0.

Specific hardware and software compatibility requirements are outlined below. You must meet these requirements to support your Kofax Mobile SDK 3.4.0 based application. These requirements specifically list the needs of the Kofax Mobile SDK and do not include any additional requirements you require for other software that runs on the same device.

## Product requirements

### Kofax Mobile SDK
