About Kofax Analytics for TotalAgility technical specifications

Kofax Analytics for TotalAgility® provides the insight and metrics required to analyze the effectiveness of your business processes. The technical specifications in this document are specific to Kofax Analytics for TotalAgility 1.4.1.

A required amount of memory and disk space is provided. You must meet these requirements to support your Kofax Analytics for TotalAgility system. These requirements specifically list the needs of Kofax Analytics for TotalAgility and do not include any amount of memory or disk space you require for the operating system, environment, or other software that runs on the same machine.

System Architecture

The diagram below illustrates how data flows from Kofax TotalAgility to Kofax Analytics for TotalAgility.

Note: If you plan to extend Kofax Analytics for TotalAgility to include Kofax Analytics for RPA 2.0 views, both projects must be installed on the same instance of Kofax Insight.

Product requirements

Hardware recommendations will vary depending on specifics of deployment scenarios. Refer to the *Kofax Analytics for TotalAgility Administrator's Guide* and *Kofax Insight* documentation.
