

Unlock the Power.

SAP is amazing in its own right. But can you optimize its power through Domo? PelotonSAP has figured out just how well the two can work together.

Elliot Collins | PelotonSAP

After 20 years in the SAP world, I know what SAP does very well. I also determined that Domo could help it be better.

Why SAP Apps?

- **Economies of scale**
 - You pay 10% of total cost of the app or less
- **Custom apps at a fraction of the cost**
 - You don't pay for R&D
- **Unmitigated access to your data, which has been prepared for business decision making**
 - Access to all the data, all the time
 - Build your own cards after we've done the work
- **Only Domo offers universal SAP apps**
 - No one else has pre-transformed data
- **One spot for ALL your enterprise data**
 - Data isn't diversified. Rather, by pulling directly from your ECC/BusSuite, data is clean and ready to use
