

Updates for Specialty Contractors

Here's what's new and what's changed in Procore from January 2019 - March 2019.

Featured Updates:

MANAGE YOUR PROJECT TASKS IN THE FIELD ON MOBILE - iOS & ANDROID

Managing tasks is a major part of jobsite operations. You can now quickly create and review project tasks on the fly from your mobile device. Learn more: [iOS](#), [Android](#).

CAPTURE INCIDENTS IN THE FIELD IN REAL TIME - iOS & ANDROID

The incidents tool is now available on mobile so you can capture and manage incidents more accurately without having to walk back to the office or jobsite trailer. Learn more: [iOS](#), [Android](#).

EXPEDITE WEEKLY TIMESHEET SIGNATURES ON MOBILE - iOS & ANDROID

With weekly signatures, your employees can sign off on all their hours, across jobs for the week, with one signature. Learn more: [iOS](#), [Android](#).

Project Management Updates & New Releases

ORGANIZE RFIs BY PROJECT PHASE

Procore has updated the Project level RFIs tool so you can create a predefined list of RFI prefixes to help you better organize your project's collection of RFIs by project stage. [Learn more.](#)

SPEND LESS TIME SEARCHING FOR DRAWINGS ON WEB

Search drawings in a project by typing keywords in the Search bar--providing you with a list of drawings that have occurrences of these keywords. [Learn more.](#)

EASILY CORRECT THE ORIENTATION OF DRAWINGS

Rotate drawings that are not in the correct orientation while in "review" status. [Learn more.](#)

Quality & Safety Updates & New Releases

CAPTURE INCIDENTS IN THE FIELD IN REAL TIME - iOS & ANDROID

The incidents tool is now available on mobile so you can capture and manage incidents more accurately without having to walk back to the office or jobsite trailer. Learn more: [iOS](#), [Android](#).

STANDARDIZE YOUR OBSERVATION FIELDSETS

Configure your Observations to better fit your business needs. Make fields optional, required, or hide them completely—streamlining the process for your field teams. [Learn more](#).

Field Productivity Updates & New Releases

EXPEDITE TIMESHEET SIGNATURES ON MOBILE - iOS & ANDROID

With weekly signatures, your employees can sign off on all their hours, across jobs for the week, with one signature. Learn more: [iOS](#), [Android](#).

GAIN VISIBILITY INTO EMPLOYEE'S HOURS FOR THE WEEK - iOS & ANDROID

Weekly view of Timesheets gives crew leads insight in to an employee's total hours for the week across projects. It's now easy to understand when an employee is approaching or has crossed the overtime threshold. Learn more: [iOS](#), [Android](#).

SIMPLIFY THE TIMESHEET APPROVAL PROCESS

Reduce the amount of administrative work required for payroll. The new company level Timesheets tool allows you to view, edit and approve all time in Procore for the week across jobs. [Learn more](#).

Other Updates & Enhancements

MANAGE YOUR PROJECT TASKS IN THE FIELD ON MOBILE - iOS & ANDROID

Managing tasks is a major part of jobsite operations. You can now quickly create & review project task on the fly from your mobile device. Learn more: [iOS](#), [Android](#).
