

# What's New in Procore

We released 34 product enhancements from July 2020 - September 2020.  
To see the full list of updates, visit [procore.com/whats-new](https://procore.com/whats-new).

## FEATURED UPDATES

### Track Out Of Scope Work With T&M Tickets

Document, track, and enable visibility into out-of-scope work the minute it's requested in the field. [Learn More](#)

### Labor Productivity Cost Budget View

Leverage real-time labor and production data to make decisions that maximize productivity and protect profits. [Learn More](#)

## Build The Safest Environment For Your Teams

The ability to improve safety culture starts with understanding what's happening in the first place.

### Root Cause Analysis Dashboard

Use this new report to perform root cause analysis and exploration of quality and safety metrics. [Learn More](#)

### Body Part Diagrams

Minimize the effort of capturing critical information and maximize your ability to trend across projects. [Learn More](#)

## Technology That Makes You More Efficient

Digital tools should give you time back so you can focus on the next task. The following gives you exactly that.

### The Search Is Over

Save time by searching for items across the entire project from a single location. [Learn More](#)

### Correspondence Meets DocuSign

Sign, send, and manage official correspondence such as Notice of Delay or Official Letters, anytime, anywhere. [Learn More](#)

## What do you want to see next?

If you have suggestions for features that would make your work easier, tell the Procore Development Team by submitting and voting on ideas in the [Customer Feedback Forum](#).

# Get more value from Procore with our newest integrations.

The Procore App Marketplace has over 200 partner solutions that integrate seamlessly with our platform. So you can work the way you want to, all without ever leaving Procore.

## Easily manage your workforce with Arcoro

Consolidate essential HR processes in one place, allowing hires to easily manage cost codes, track attendance, and record hours. [Learn More](#)

## Automate the COVID Pre-screening Process with Nyfty.AI

Let Health Survey Bot conduct COVID-19 Wellness Checks on your construction site. It conducts the surveys via SMS, escalates any issues to you and saves each Survey as an Inspection in Procore. [Learn More](#)

## Improve your cash flow by financing your materials with Billd

Billd offers a cost-effective financing option for self-perform contractors for 120-day terms on material purchases for commercial jobs. With the embedded experience, users can create material purchase requests in Billd directly from projects in Procore. The integration automatically syncs projects and keeps them up to date in both systems. [Learn More](#)

## Virtually collaborate with your teams right inside of Procore

Miro allows for all project stakeholders to create, update, and delete shared information on a digital whiteboard. This allows for better communication, planning, and tracking by all team members--especially during remote work scenarios. [Learn More](#)

## Safely track your workforce with SmartBarrel's rugged kiosk and integration.

Smartbarrel's time entry solution leverages image recognition to offer contactless confirmation of worker presence and required PPE. This allows workers to easily and safely clock in and out, while providing an automatic feed to Procore Timesheets for real-time productivity tracking. [Learn More](#)
