

Introduction to the Association of Business Process Professionals ABPMP

Professional Association

- The Association of Business Process Management Professionals is a non-profit, vendor independent professional organization dedicated to the advancement of business process management concepts and its practices. ABPMP is **practitioner-oriented and practitioner-led.**

Our Mission

- The mission of ABPMP is to engage in activities that promote the practice of business process management, to develop a Common Body of Knowledge in this field, and to contribute to the advancement and skill development of professionals who work in this discipline.
- ABPMP produces educational and networking events for continuing education and sharing of best practices, new ideas, and experiences of its members and professional colleagues.
