Welcome to our Latest Release

EasyCruit by Lumesse continues to deliver customer value through its new releases, providing features that make the user experience more efficient and enjoyable.

[Click here](#) to watch a video demonstrating the new features.

We are Implementing Your Ideas!

Our teams work to constantly improve the features we offer you and we gather feedback in two ways:

✦ Ideas:

Through our customer portal (www.lumesse.com/community) where all customers and employees of Lumesse can share their enhancement requests or new feature ideas.

✦ Account Manager Feedback:

Our Account Managers welcome your ideas and feed them into our teams.

Data extraction

As part of the EasyCruit analytics module, the data extraction feature allows you to export EasyCruit information into Excel, to create your own reports. When activated, a new tab called Data Extract will appear when you click on Reports from the home page.

Clicking on the Extract description will allow you to then select the filter options and generate the extract.

Your browser will prompt you to either open or save the extract which you can open in Microsoft Excel.

cut-e test assessment integration

The test selection options have been improved to allow multiple tests to be sent to candidates in one email.

Invitation to online questionnaire

Available Tests Sales X Test 102 X

Subject You have been chosen to complete an assessment at cut-e

Contents Dear {first-name},
You have been invited to complete tests in connection with your job application.
Click each of the following links to start the tests. Please click on each link and complete them one at a time
{assessment-test-name-link-group}

Candidates will receive one email, which will direct them to the cut-e landing page and show them the list of tests they need to complete.

From the Recruitment Overview you will be able to see the different tests/ bundles you have sent to candidates.

Clicking on this will show you a summarised view of the average score (for ability tests), matching score (if snap-it is used), and a link to a PDF if configured.
