16-17 Village Gardeners
[REDACTED]
18.50

Group Plan

Gardening provides many forms of beneficial engagement for children, including designing, planting and maintaining the garden; harvesting, preparing and sharing food; working cooperatively in groups; learning about science and nutrition; and creating art and stories inspired by the garden. Substantial in-depth research confirms that school garden programs provide lifelong benefits, such as developing interpersonal skills, increasing healthy eating habits, raising science achievement scores and attitudes toward learning, and fostering concern for environmental stewardship.

16-17 Junior Achievement Club, Junior
[REDACTED]
18.00

The Junior Achievement program enhances the relevancy of education, bridging the gap between what students are learning in school and how it can be applied in the real world. It inspires students to succeed in the global economy by bringing real-world situations to the classroom setting. The Junior Achievement program promotes community partnership to help students become empowered with the skills to create a better tomorrow for themselves and our community.

Fuel Up 4 Learning (FU4L)
[REDACTED]
12.00

Fuel Up 4 Learning (FU4L) is an opportunity for students to start their day with physical activity and prepare themselves for learning. Numerous studies have documented the benefits of 1) physical activity before classroom instruction and 2) the acquisition of 60 minutes of physical activity for adolescents each day. FU4L provides students the opportunity to participate in enjoyable, vigorous activity as preparation for the demands of classroom learning as well as to add to their daily accumulation of physical activity. FU4L is also one way for the school to participate in the National Fuel Up To Play 60 program which is sponsored by the NFL and the AZ Dairy Council.

Technology EEP
[REDACTED]
7.00

Technology club will give students an opportunity to gain knowledge in coding, video creation, and a chance for students to enhance their technology skills. This club will meet once a week every week during the 2016-2017 school year. Students will be able to create videos, work on coding activities and upload completed projects to for others to see on FNC. It will be in the planning part, but if there is interest I might even be able to have students assigned to staff members who feel they have a need to learn a specific technology skill. If able to I will look into scheduling 1-2 field trips related to technology.

 Baton Twirling Club Grades 4th-6th
 [Redacted]
 9.00

Since this baton class will be taught to older grades, we will incorporate more complex twirling tricks such as: thumb tosses, double element rolls, swing series, exchanges, group routines, and more! While learning different baton twirling tricks, students will have the chance to participate in fun group games and partner work that will teach them teamwork skills. Students will develop self-confidence and feel successful from achieving their goals. We will meet weekly for twirling classes (a separate day from the K-3rd class). I will open this class up to 25 4th-6th grade students. At the end of each session of classes, I will coordinate a performance for family and friends to come and watch that will allow them to show off their hard-work.

Empire Service Learning Program
[REDACTED]
10.00

The Empire Service Learning program consists of a service learning trip to Ecuador. Due to its service component, is primarily open to future or current Spanish AP students, Spanish Honor Society students, and National Honor Society students. It is designed to coincide with the College Board's recent push to incorporate service learning into AP classrooms because service learning increases students' problem-solving, leadership, and critical thinking abilities; ability to relate to other cultures; and increases feelings of social responsibility, all within the context of the subject(s) being taught. The Empire Service Learning Program is designed to broaden and coincide with the College Board's goals through this service learning trip. The tour combines exploration of the country and its culture with a service learning component in the Amazon basin. Multiple foreign language, science, and social studies standards will be addressed.

2016-2017 Be Kind Club
[REDACTED]
16.00

Is kindness science? It can be! There is some evidence that being kind can make a real difference to the well-being and health of individuals who practice it and receive it. This plan supports the Empire Be Kind Club. This club will provide a means for students to develop leadership, team building and communication skills to better school climate by spreading awareness and increasing engagement in kind actions. Students will be provided with time, encouragement and supplies to design and implement activities with the school and community centered around creating a culture of kindness.

3352
EHS Science Club 2016-2017
[REDACTED]
19.50

Current estimates on the part of the President's Council of Advisors for Science and Technology are that we need to encourage 1,000,000 more students each year go into STEM (science, technology, engineering, and math) fields in order for the US to maintain its lead in innovation and science. This plan supports the Empire Science Club and Science Olympiad team. Students are provided with time, encouragement, and supplies to explore many diverse areas of science that are not addressed in their classes in a fun and enriching atmosphere. These activities help students develop both enthusiasm for science and competence in science to help them excel in their classes and to see this as an attractive and viable career choice.

 2016-2017 DREAM Club (Dedication,
 [REDACTED]
 12.00

I would like to continue DREAM club to help students follow their dreams and help them deal with issues that may hinder their path. I really want students to be inspired by others and learn about themselves. Students have been able to step away from the academic environment and discuss their struggles, strengths, and growth development as human beings. Students show how much there care about one another and discuss world wide issues to gain an understanding of how important it is to help one another.
