

High Achieving and Motivated Students

What is our Mission? Are we fulfilling it for ALL students?

What supports do these families need that is different from our other families?

What data do we have on our HAMS?

What does that data tell us? How can we improve that data?

Do we have the knowledge on campus to do this? What additional learning do we need?

Who do we have on campus that can specifically focus on these students?

How are we celebrating these students?

What could we do to celebrate them?

What would we tell a family of a HAMS about why we are the right school for them?
