

GETTING STARTED

Welcome to the EBSCOhost Android app tutorial, a guide to using the many features of the Android application version of EBSCOhost. The EBSCOhost Android app can be used on devices running Android v. 2.1 or later.

Downloading and Authentication

The EBSCOhost app is available as a free download from the Android Market. After downloading the App, you will need to send yourself an authentication key from your institution's EBSCOhost account.

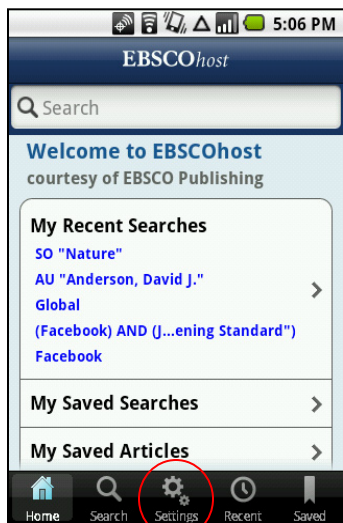

Click the **EBSCOhost iPhone and Android Applications** link at the bottom of the screen.

An email with an authentication key is sent to you.

Access the email **from your device** and click the link found in the email to authenticate the application.

You have 24 hours to access the key from your device to authenticate the app. If the key is not used within 24 hours, it expires and you will need a new key.

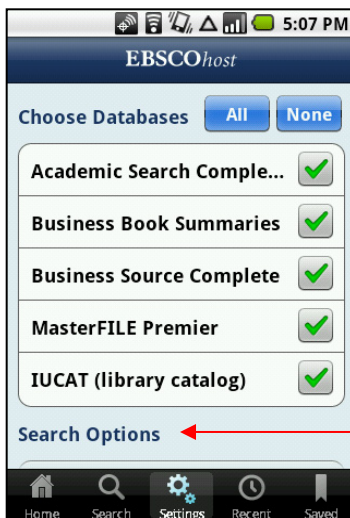

THE HOME SCREEN / THE SETTINGS MENU / SEARCHING

From the **Home** screen of the EBSCOhost App, you can:

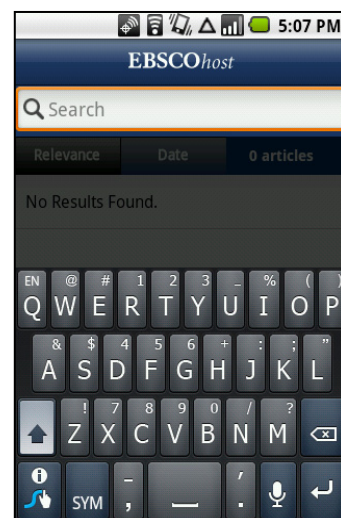

- Perform a keyword search using the Find field.
- View Recent Searches.
- View your Saved Searches.
- View Saved Articles.
- Change your Android App Settings.

Click the Home button to access the Home screen at any time.

From the **Settings Menu**, you can select which databases to search. In the **Search Options** section, you can also set limiters:

- **Full Text:** Tap to limit all searches to results that have full text available.
- **Peer Reviewed:** Tap to limit all searches to results that are peer-reviewed.
- **Autocomplete:** Tap to turn the Autocomplete feature on.

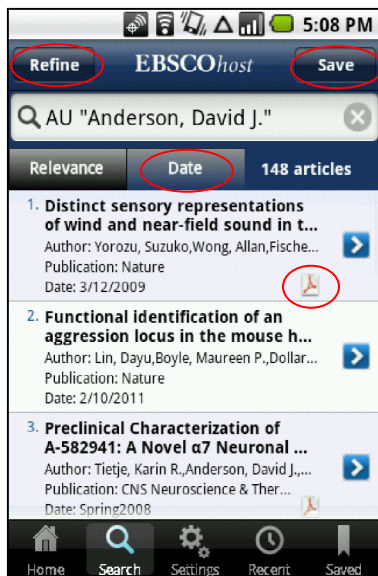

To search the EBSCOhost app, tap the **Find** field from the **Home** or **Search** screens. The onscreen keyboard is displayed.

THE RESULT LIST

A result list with articles matching your search terms is displayed.

Tap a result list item to view the detailed record for the article.

Result List items with an Adobe icon include PDF full text that can be downloaded and viewed on your device.

The Result List can be sorted by date by tapping **Date** above the list.

Tap **Refine** to modify your search by publication and/or subject heading.

You can save your search by tapping **Save** at the top of the screen. Saved searches can be viewed by tapping **Saved** in the menu at the bottom.

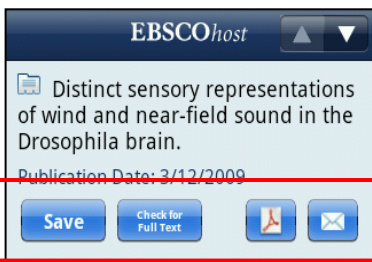

If you rotate the device, you can view the Result List in **landscape mode**.

Scroll through the result list by sliding your finger to the right or left.

Tap a result list item to view the Detailed Record for the article.

THE DETAILED RECORD

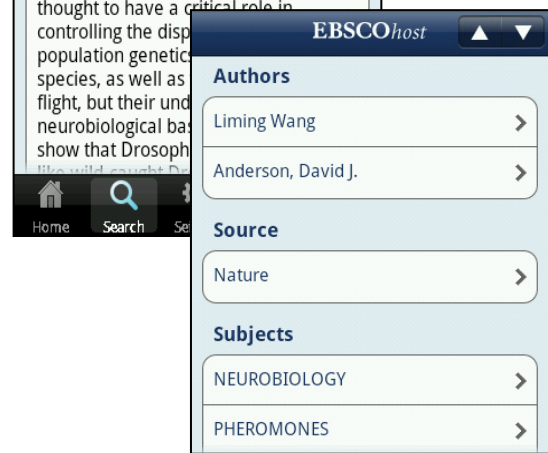

From the Detailed Record, you can:

- Tap your device's **Back** button to return to the Result List
- Tap the **Up** and **Down** arrows to page through the results.
- Tap **Save** to save the article's Detailed Record and available Full Text to your device.
- Tap **Check for Full Text** to view external links where full text may be available. (If available)

- Tap  to view the Detailed Record for an article.
- Tap  to view the HTML Full Text (if available).
- Tap  to download and view the PDF Full Text (if available).
- Tap  to email the article.

Also from the Detailed Record, you can:

- Tap an **Author** name to view more articles by that author.
- Tap a **Source** title to view more articles from that journal.
- Tap a **Subject** to view more articles related to that subject heading.
- Tap a **Database** name to view more articles from that specific database.
