Willkommen zum Tutorial für den EBSCO Discovery Service (EDS). EDS bietet Ihnen Zugriff auf die gesamte Sammlung ihrer Bibliothek über einen einziges, anpassbares Suchfeld. In diesem Tutorial sehen wir uns die wichtigsten Merkmale von EDS an und lernen, wie wir eine einfache Stichwortsuche durchführen. Da die EDS-Schnittstelle von Administratoren jeweils angepasst wird, kann Ihre Oberfläche in Details von dieser Demonstration abweichen; so kann etwa eine Deutsche oder Englische Oberfläche voreingestellt sein.

Searching: University Library Collection

Keyword ?

[Search Options](#) ▶ [Basic Search](#) [Advanced Search](#) [Search History](#)

Wir beginnen mit einer Suche in der einfachen Suchmaske nach *global warming*. Geben Sie Ihre Suchbegriffe ein und klicken Sie auf die Schaltfläche “Suchen” (oder “Search”).

Beachten Sie, dass Sie allein aufgrund der Relevanzsortierung, die auf Qualität der Metadaten auf Articlebene beruht, hervorragende Ergebnisse in EDS abrufen können, ohne Limiter oder Expander auf die Suche anwenden zu müssen.

EBSCO Discovery Service

EBSCO Discovery Service

EBSCO Discovery Service provides users with an easy, yet powerful means of accessing all of an institution's information resources through a single search. This is achieved by harvesting metadata from both internal (library) and external (database vendors) sources, and creating a pre-indexed service of unprecedented size and speed. Although the resulting collection can be massive in size and scope, the fact that it is indexed locally (on the EBSCOhost® servers) allows for exceptionally fast search response times. As no two institutions are the same, EBSCO Discovery Service offers a vast array of customization options with regard to both the underlying collection of metadata as well as the front-end delivery of search results. All of this functionality is based upon the powerful EBSCOhost search experience familiar to researchers worldwide.

Note: With many customization options for available to administrators, your EBSCO Discovery Service appearance will be unique.

OPAC on EBSCOhost

OPAC on EBSCOhost brings your Public Library catalog, databases, and readers' advisory together in a single search experience, leveraging EBSCO's expertise in loading and enriching data along with the popularity of the EBSCOhost interface, enabling libraries to use EBSCOhost as the front end of their online catalog.

EBSCO Support Site

EBSCO's [Support Site](#) is available 24 hours a day, 7 days a week. Our FAQ database, [tutorials](#), and user guides can provide answers to your technical questions.

EBSCO Customer Support Representatives are also available by [phone](#) and [e-mail](#) 24 hours a day, Monday through Friday, as well as Saturday and Sunday from 9 a.m. to 5 p.m. (US EST).
