

GlobalMeet® Collaboration

Delivering a Superior Collaboration Experience

GlobalMeet Collaboration is a feature-rich video conferencing solution that delivers a superior collaboration experience. Users have instant, one-click access to their own simple and intuitive meeting room on any device, whenever, wherever. Backed by 24/7 in-meeting support, GlobalMeet is an ideal fit for team meetings, customer presentations, training sessions and other everyday collaboration needs.

Experience Simple and Intuitive Meetings

GlobalMeet is built to deliver an intuitive user experience with full-featured meeting access across all devices. Users can schedule, start and join meetings quickly and easily from the desktop app or a mobile device. Calendar-integration features with Outlook and G-Suite increase efficiency, save time and help users work smarter, not harder.

Enhance Face-to-Face Interaction

With GlobalMeet, enhance face-to-face interaction with high-quality Dolby audio and HD webcam video with screen share. Collaborate in real time by sharing your screen, webcam, whiteboard, and files. And access to instant, 24/7 support via phone, email and chat in 12 languages is just a click away.

One-Click Meeting Access

Instant meeting access on any device

Real-Time Collaboration

Interact with webcams, screen share and whiteboarding

Industry-Leading Support

24/7 in-meeting access to industry experts

Personalized Meeting Room

Accommodate 125 participants in a simple and intuitive meeting room that users can access in one click from any device.

Easy Meeting Options

Schedule, start and join meetings quickly and easily from the desktop app, Outlook toolbar or from a mobile device on the fly.

Real-Time Collaboration

Engage participants with high-quality Dolby audio and HD video screens with screen share.

Content Sharing Made Easy

Start recording, mute participants and share your webcam, screen or whiteboard in just one click.

Outlook and G-Suite Integrations

Calendar-integration features increase efficiency, save time and help users work smarter, not harder.

Mobile Video Conferencing

Experience crystal-clear collaboration that enhances face-to-face interaction wherever users are.

Single Sign-On (SSO)

Implement and use your own SAML provider, giving you a single point of authentication with the tools to control and manage user names and passwords.

Microsoft Teams Integration

Provides cohesive interoperability to start, join and schedule GlobalMeet meetings within MS Teams.

Dedicated Implementation and Onboarding

Our customer success program ensures a smooth transition and onboarding experience.

Multimodal Support Capability

Instant, 24/7 in-meeting support via phone, email and chat.
