Editing subscriptions to see update notifications for products (2)

- Use the “Add to my favorites” function on a product information page to edit subscriptions for the products for which you wish to see update notifications.

The screenshot displays the Renesas website interface for the 'e² studio' product page. The top navigation bar includes the Renesas logo, a search bar, and a dropdown menu for 'Americas'. Below this, a secondary navigation bar contains links for 'Solutions', 'Products', 'Design & Support', 'About', and 'Special Offers'. The main content area features a breadcrumb trail 'Home > Software and Tools > Tools' and a sidebar with a 'Software and Tools' menu. The central product title is 'e² studio', followed by a description: 'Renesas e² studio is a development environment based on the popular Eclipse CDT covers build (edit linker control) as well as debug interface. This product also supports the RZ family and Renesas Synergy. A wide range of compilers can be integrated into e² studio. C project management tools of Eclipse CDT, e² studio offers a controllers.' Below the description is a 'Topics' section with a link to 'Learn More (Tool News) >>'. At the bottom of the page, there are tabs for 'Product Info', 'Design Support', 'Documentation', and 'Downloads', and a 'Release Information' section for 'e² studio' with details: 'Latest Ver.: V6.1.0' and 'Released: Oct 18, 2017'. A red circle highlights the 'Add to my favorites' button, and a yellow callout box points to it with the text: 'Log-in to My Renesas and edit subscriptions by clicking here on a product information page.'
