

Accession Mobile Call Jump User Guide

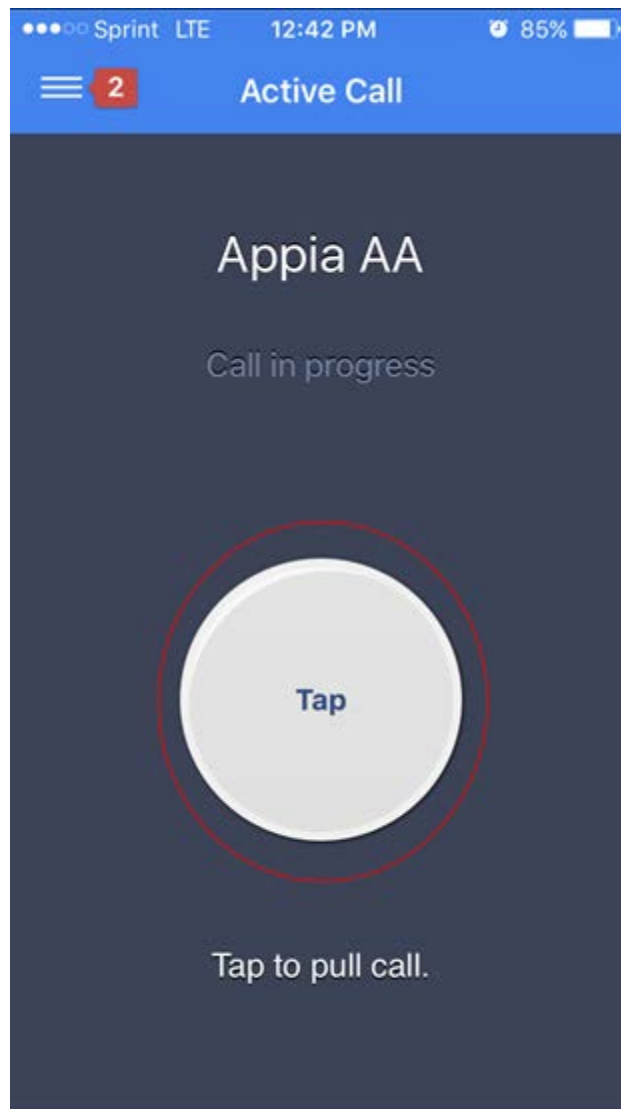

1. To initiate Call Jump to send the call from your desk phone to Accession Mobile on your smartphone, you first need to select the menu button in the upper left-hand corner of the Accession Mobile app

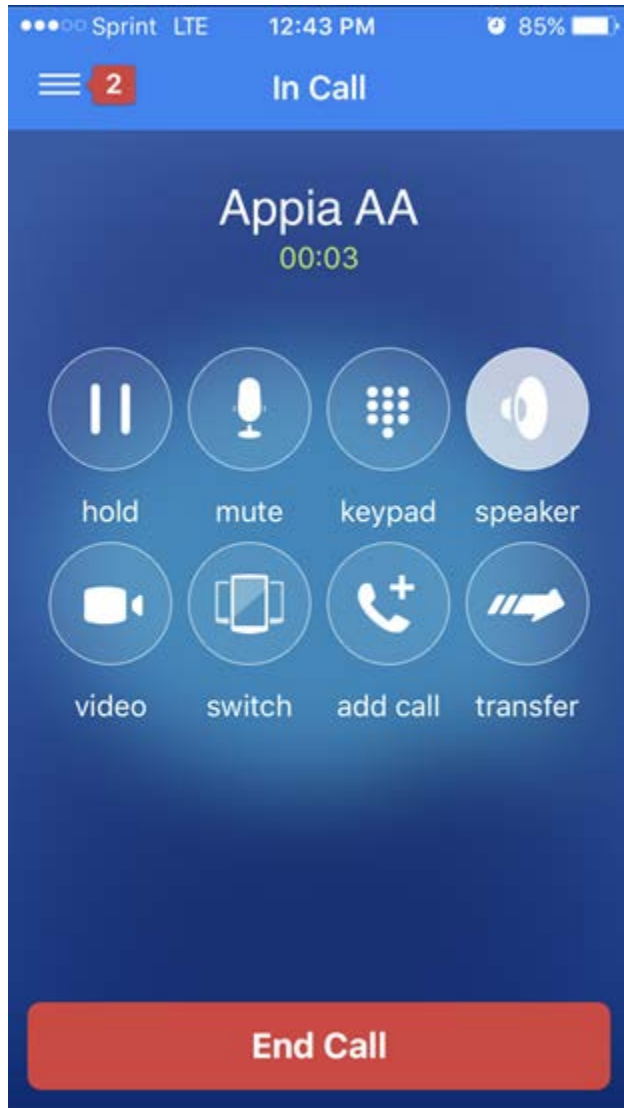

2. You will then be presented with a banner that reads "Call Available to Pull"

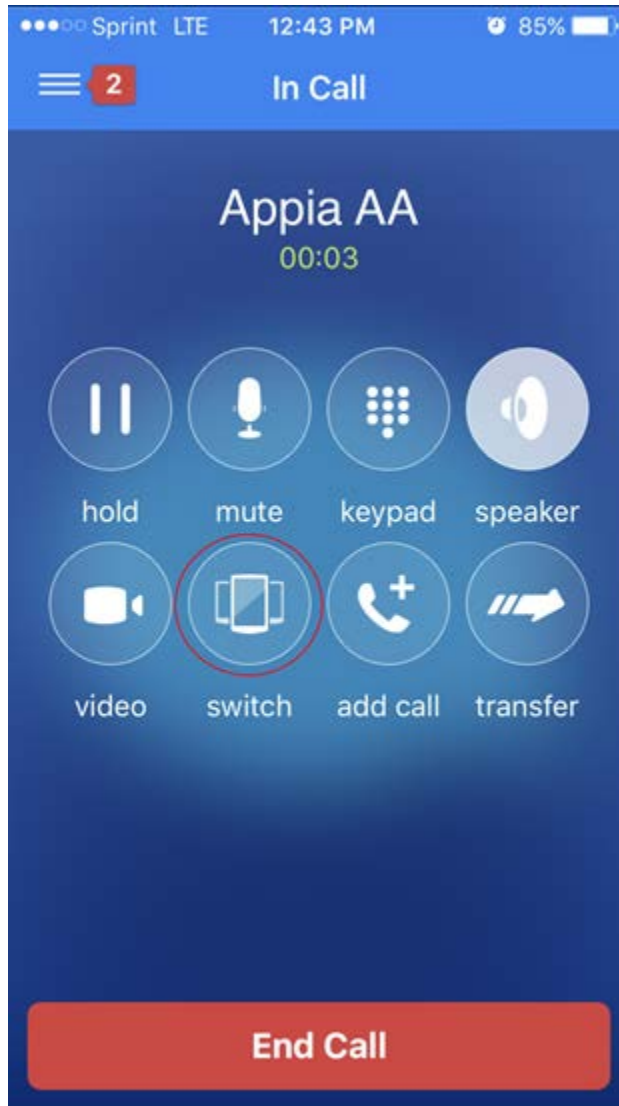

3. Click the banner, and the app will then present you with a button that reads “Tap to pull call”; press the button to push the call currently on your desk phone to Accession Mobile on your smartphone.

4. The call is automatically transferred to Accession Mobile on your smartphone, and appears as a normal call in progress

5. To send the call from Accession Mobile back to your desk phone, press the switch button

6. On the menu that appears, select the option for "Another device"; the call will then ring on the phone(s) that are registered to your subscriber account. Once you answer the call on your desk phone, the call on Accession Mobile is immediately ended and the call is now back on your desk phone.
