New Features and Enhancements

Applicant Portal Enhancements

The following enhancement is available for the Applicant Portal as part of Sprint 15.

Official OAT Scores

Note that this enhancement is immediately available and does not require any configuration.

We are excited to announce that official OAT scores are now received and processed in the OptomCAS application. Applicants can use an OptomCAS-specific OAT code to report their scores to the application. Officially received scores are listed in the **Check Status** tab and in the full application PDF.

WebAdMIT Enhancements

The following enhancements are available for WebAdMIT as part of Sprint 15.

Official OAT Scores

Note that this enhancement is immediately available and does not require any configuration.

We are excited to announce that official OAT scores are now received and processed in the OptomCAS application. Admissions users can view the officially received scores in WebAdMIT under the **Standardized Tests** panel.

The screenshot shows a user profile for 'Hoda Demo' with an OptomCAS ID of 5251345591, which is verified. The last update was on May 31, 2017. A navigation menu on the left includes sections like Contact Information, Designations, Scoring, Assignments, Interviews, Documents, Evaluations, Personal Information, Infractions, OptomCAS Custom Questions, Custom Questions, Custom Fields, and GPA Overview. The 'Standardized Tests' section is expanded, displaying a table of test results.

Test	Status	Test Date	Official Results	Official Received By	Official Received Date	Overall Result	Result Notes	Details
OAT	Taken	May 23 2017	<input type="checkbox"/> Received	N/A	N/A	280	Academic Average	Details
OAT	Taken	Jan 18 2017	Official	OptomCAS	Apr 19 2017	290	Academic Average	Details

Prerequisite Course Report

Note that this new functionality will automatically be available for the 2018-2019 cycle for CASs using Prerequisites. This feature can be activated for the current cycle upon request. Contact your Account Manager if you have any questions.

We are excited to announce a new report type: the *Prerequisite Courses* report. This file extracts the courses matched to a program's prerequisites, either by applicants in the application, if enabled, or by admissions users in WebAdMIT. The applicant's **CAS ID**, **prerequisite category name**, **course prefix**, **course name**, **course subject**, **course credits**, **applicant-reported** and **CAS grades**, and **course type** fields are included.

You can locate this report under the **Report Manager** in the **Applicant** report group, and it produces as a .csv file type.

Applicant Details in Association Portal

Note that this enhancement is immediately available and does not require any configuration.

We are excited to announce that association-level users can now view more applicant details in WebAdMIT, including data in the **Contact Information, Designation, Documents, Evaluations, and Notes** panels. Association-level users also now have access to the **Search Applicants** page, which includes an **Organization** filter option.

Please note that this enhancement affects the 2014-2015 cycle and later.

[New Note](#)

Assignment Emails

Note that this new functionality will automatically be available for the 2018-2019 cycle. This feature can be activated for the current cycle upon request. Contact your Account Manager if you have any questions.

We are excited to announce automatic emails for reviewers who are given an Assignment in WebAdMIT. The automatic emails will be sent daily, or weekly on Mondays, to anyone who has incomplete assignments. If you participate in several CASs in WebAdMIT and are assigned an Assignment, you will receive an email for each of your CASs (e.g. one email for incomplete assignments in CASPA, one email for incomplete assignments in ADEA DHCAS, etc).

The automatic emails will be sent to the email address that your WebAdMIT account is set up with. You can disable the email reminders, if needed, under your account settings.

The screenshot shows a web interface for managing assignments. At the top, there is a 'Work Group' dropdown menu set to 'WebAdMIT Administrato'. Below this is the 'Program Assignments' section, which includes a checked checkbox for 'CASPA 2017-2018', 'Check All', and 'Uncheck All' buttons. A red arrow points to the 'Email Notifications' button in a row of action buttons that also includes 'Submit', 'Edit Availability', and 'Return to Admissions Users'. Below the main interface is a separate 'Email Notifications' panel with the sub-section 'Assignment Emails'. It contains two checked checkboxes: 'Daily Assignment Emails' and 'Weekly Assignment Emails'. At the bottom of this panel are 'Submit' and 'Cancel' buttons.

Designation Added Date

Note that this new functionality is a configurable feature option available for the 2018-2019 cycle. Depending on your cycle dates, this feature may be available in the 2017-2018 cycle. Contact your Account Manager if you have any questions.

We are excited to announce that when applicants add a designation to their application, the date added is recorded and transferred to WebAdMIT. This field, labeled as **Program Added**, is located under **Details** in the **Designations** panel. You can also search by it in the List Manager and extract it in the Export Manager.

If an applicant removes a designation and later re-adds it, the new date added is recorded in WebAdMIT.

The screenshot shows the WebAdMIT interface for Benjamin Michael Pichette. At the top, there is a navigation bar with "previous Evan Penico | All Applicants | Danielle N. Polansky next". Below this, the applicant's name "Benjamin Michael Pichette" is displayed. To the right, there is a "CASPA ID: 2180424524" with a status of "Unverified" and a note "Last CASPA Update on Jul 11, 2017 at 1:43 AM". There is an "Upload" button on the left and an "Add to Clipboard" button on the right. Below the navigation bar, there are sections for "Contact Information" and "Designations". The "Designations" section contains a table with the following data:

Designation	Local Status	Decision Code	Application Status	Submitted Date	Completion Date	Verified Date	Details
CASPA 2017-2018	none	Unassigned	Complete	Jul 10 2017	Jul 11 2017	N/A	Details

Below the table, there is a "Program Details" section with the following information:

- Program Name: Chatham University
- Program Level: Master
- Start Term: Fall
- Start Year: 2018
- Program Added: 2017-04-29

Upcoming Events

Please review the list of upcoming events, including scheduled downtime/maintenance, product updates, and regional training opportunities.

Event	Date	Details
Sandbox Environment Refresh	July 24, 2017	<p>The sandbox (test) environment for the CAS applications and WebAdMIT will be refreshed. All data and features created in these environments will be deleted. Updated data and features from the live CAS application and WebAdMIT environments will be loaded in.</p> <p>We advise that you complete current testing before the refresh. You can log back into the sandbox environment on July 25.</p>
Reviewing & Scoring Applicants Regional Training in Dallas, TX	September 12, 2017	<p>Register now for our <i>Reviewing & Scoring Applicants</i> live training in Dallas, TX.</p> <p>Participants will learn how to make best use of the Assignments and Interviews features in WebAdMIT through a series of hands-on exercises led by a WebAdMIT expert. They will learn how to rank applicants and pinpoint the most qualified candidates, while networking with peers to learn how others are using WebAdMIT to achieve their admissions goals.</p> <p>To learn more about this class and our other training resources, visit http://webadmit.liaisonedu.com.</p>
Reviewing & Scoring Applicants Regional Training in Denver, CO	October 18, 2017	<p>Register now for our <i>Reviewing & Scoring Applicants</i> live training in Denver, CO.</p> <p>Participants will learn how to make best use of the Assignments and Interviews features in WebAdMIT through a series of hands-on exercises led by a WebAdMIT expert. They will learn how to rank applicants and pinpoint the most qualified candidates, while networking with peers to learn how others are using WebAdMIT to achieve their admissions goals.</p> <p>To learn more about this class and our other training resources, visit http://webadmit.liaisonedu.com.</p>

Resolved Issues

Applicant Portal

The following issues are resolved in the Applicant Portal as part of the Sprint 15 release. The codes in parentheses correspond to the identifiers in our issue tracking system.

1. An issue that caused reapplicant information to only be pulled from the previous cycle that had no data, rather than earlier cycles that did have data, was resolved. (UNCAS-12887)
2. A display issue that caused parts of security questions to not appear after selecting them was resolved. (UNCAS-13022)
3. An issue that recorded the **Expiration Date** in coupon codes as one day earlier was resolved. (UNCAS-13440)
4. An issue that allowed applicants who ordered Professional Transcript Entry to submit their application without completing the **Program Materials** section was resolved. (UNCAS-13552)
5. An issue that listed the incorrect states once a country is selected in the Evaluation Portal was resolved. (UNCAS-13568)
6. An issue that caused undelivered applicants' manual designations to change to undelivered was resolved. (UNCAS-13586)

WebAdMIT

The following issues are resolved in WebAdMIT as part of the Sprint 15 release. The codes in parentheses correspond to the identifiers in our issue tracking system.

1. An issue that caused **Manual Designations** not to include correct data in the **Program Identifier** field was resolved. (WA-4888)
2. **Manual Designations** were updated to include previously missing data in the **Program Identifier** field. (WA-4889)
3. A display issue that listed the **Visa Country code** rather than **Visa Country name** under the **Personal Information** panel, **Citizenship and Residency** subpanel was resolved. (WA-4918)
4. An issue that caused the **Export Manager** to not pull the correct number of "many" fields for exports run on no applicants was resolved. (WA-4925)
5. An issue that caused incorrect applicant totals in the **Race and Ethnicity** report was resolved. (WA-4945)
6. A display issue that listed code instead of text in the tool tip for the **Designation** field in the **Search** page was resolved. (WA-4953)
