New Features and Enhancements

Parchment Electronic Transcripts

We are pleased to announce that we now accept electronic transcripts from [Parchment](#). If the schools or programs in your CAS offer the Parchment service, your applicants can now submit them as part of their application.

Applicants should first check Parchment's website to verify that their school or program participates in the service. Once a transcript is requested, it takes 7-10 business days to post to the application.

Resolved Issues

WebAdMIT

The following issues are resolved in WebAdMIT as part of the Sprint 5 release. The codes in parentheses correspond to the identifiers in our issue tracking system.

1. The **Role Assignments** option is no longer visible when you edit a user in a CAS with the Work Groups feature enabled. In previous versions, this option was visible even though Role Assignments cannot be used with Work Groups. (WA-4622)
2. Improvements were made to the message that appears when you request a password reset for an account where a reset was previously requested, but not completed. The message now correctly states that the password reset link expired and needs to be re-requested. (WA-4614)
3. An issue, where in limited circumstances, the **Official WES GPA** field could not be used in lists and exports, was resolved. (WA-4613)
