## New Features and Enhancements

### Applicant Portal Enhancements

The following enhancements are available for the Applicant Portal as part of Sprint 19.

#### Document Upload File Size Increased

**Note that this enhancement is immediately available and does not require any configuration.**

We are happy to announce that applicants can now upload documents with a file size up to 15MB each. Previously, applicant documents were restricted to a file size of 5MB or less. Note that the instructions within the application were updated with this new file size allotment.

### WebAdMIT Enhancements

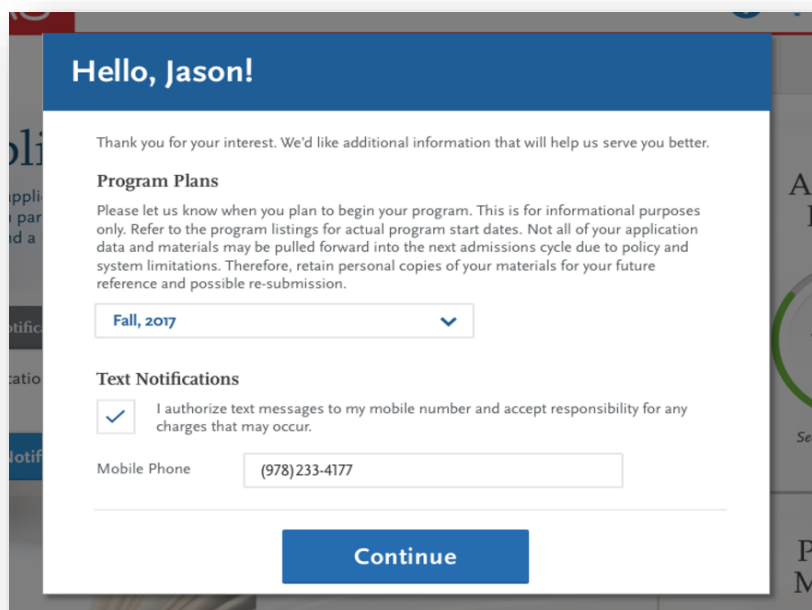

The following enhancements are available for WebAdMIT as part of Sprint 19.

#### Program Plans and Text Authorization Added to WebAdMIT

**For CASs that gather Program Plans and Text Authorization information, this enhancement is immediately available and does not require any configuration.**

We are excited to announce that the **Program Plans** and **Text Authorization** fields are now available in WebAdMIT. These are new fields collected on the application and were featured in the Sprint 16 Release Notes.

The **Program Plans** question provides visibility into an applicant's intentions, helps explain why some applicants don't apply, and identifies candidates to target for Reminder Email/SMS campaigns. The **Text Authorization** question allows an applicant to opt into text messaging for communications from the CAS and programs; you may use this information to send text messages outside of the Applicant Portal.

The screenshot shows a user interface for an applicant named Jason. At the top, it says "Hello, Jason!". Below that is a message: "Thank you for your interest. We'd like additional information that will help us serve you better." The form is divided into two main sections: "Program Plans" and "Text Notifications".

**Program Plans**  
Please let us know when you plan to begin your program. This is for informational purposes only. Refer to the program listings for actual program start dates. Not all of your application data and materials may be pulled forward into the next admissions cycle due to policy and system limitations. Therefore, retain personal copies of your materials for your future reference and possible re-submission.

There is a dropdown menu for selecting a term, currently set to "Fall, 2017".

**Text Notifications**  
 I authorize text messages to my mobile number and accept responsibility for any charges that may occur.

Below this is a text input field for the "Mobile Phone" number, with the value "(978)233-4177".

At the bottom of the form is a blue "Continue" button.

The **Program Plans** field appears in the **Applicant Header** and the **Text Authorization** field appears in the **Contact Information** panel in WebAdMIT. Both these fields are also available in the List Manager and Export Manager.

Mr. Michael

### Program Plans Added to In Progress Applicant Export

**For CASs that gather Program Plans information, this enhancement is immediately available and does not require any configuration.**

We are happy to announce that the **Program Plans** field is now included in the In Progress applicant export file.

## Coming Soon!

Please review the list of upcoming events, including scheduled downtime/maintenance, product updates, and regional training opportunities.

Event	Date	Details
Reviewing & Scoring Applicants Regional Training in Denver, CO	October 18, 2017	<p>Register now for our <i>Reviewing &amp; Scoring Applicants</i> live training in Denver, CO.</p> <p>Participants will learn how to make best use of the Assignments and Interviews features in WebAdMIT through a series of hands-on exercises led by a WebAdMIT expert. They will learn how to rank applicants and pinpoint the most qualified candidates, while networking with peers to learn how others are using WebAdMIT to achieve their admissions goals.</p> <p>To learn more about this class and our other training resources, visit <a href="http://webadmit.liaisonedu.com">http://webadmit.liaisonedu.com</a>.</p>
Updates to Lookup Tables	Mid-Fall	<p>Many fields in the application contain predefined answer values that users can select; for example, the <b>Country</b> and <b>College Name</b> fields both have predefined answer values. These values are housed in “lookup tables”, which are updated twice a year. The next update is scheduled for mid-fall.</p> <p>To find which lookup tables will be updated, and the changes in the predefined answer values, you can refer to your Custom Export Field Layout file, accessible under <b>Support Resources</b> in WebAdMIT.</p>
Updated Display of Optional/Required fields on the Applicant Portal	Mid-Fall	<p>Later this fall, the Applicant Portal will be updated to make it easier for applicants to see which fields are optional and which are required when completing the application.</p>

## Resolved Issues

### Applicant Portal

The following issues are resolved in the Applicant Portal as part of the Sprint 19 release. The codes in parentheses correspond to the identifiers in our issue tracking system.

1. An issue in which **Quality Points** were not rounding up to the second decimal place has been resolved. (UNCAS-13425)
2. **DAT Scores** now display in the **Check Status** tab of the application. (UNCAS-14190)
3. The **PCAT Writing** scores for the post-2012 PCATs were updated and labeled as **Writing Language Mean** and **Writing Language Score**. (UNCAS-14260)
4. An issue that caused the data in fillable PDF files to be removed in the Evaluator Portal was resolved. (UNCAS-14390)

### WebAdMIT

The following issues are resolved in WebAdMIT as part of the Sprint 19 release. The codes in parentheses correspond to the identifiers in our issue tracking system.

1. Several programs and organizations that are not available in the application were removed from WebAdMIT. (WA-4982)
2. The **Multiple Values** options in Scoring were updated for Official OAT scores. (WA-5013)
3. An issue in which the **Designation** field in the **Search** feature pulled the **Program Name** field instead of the **WebAdMIT Label** was resolved. (WA-5046)
